Welcome to Florida Tech!
Many international students desire to seek employment while at Florida Tech. The following information is provided to assist you in planning a job search.

On-Campus Employment

International students who are new to Florida Tech may be eligible to seek employment on campus. To determine if your eligibility for on-campus employment go to the International Student & Scholar Services (ISSS) website at: www.fit.edu/issss/employment/oncampus.php or contact the ISSS Office directly.

On-Campus Employment FAQ’s:

♦ There are two types of on-campus employment categories for students at Florida Tech
(1) Federal Work Study
(2) College Roll.

*International Students are NOT eligible to participate in the Federal Work Study program.*
Therefore, international students are only eligible to seek **College Roll** positions.

♦ College Roll positions are funded directly by individual campus departments. Some departments have funds to hire College Roll students and some do not.

*There are limited job opportunities available through the College Roll program and not every student who seeks employment will be hired.*

♦ Departments are not required to post College Roll opportunities in a centralized location, so the student needs to be proactive in finding opportunities. We suggest the following job search strategy:

1. Register with Career Services by going to College Central Network (CCN) at www.collegecentral.com/fit. College Roll jobs are listed in the **Student Employment** category. Departments who contact the Career Services Office and ask to advertise their College Roll positions will post their positions in this section.
2. Subscribe to FITFORUM at https://lists.fit.edu/sympa/info/fitforum. Many campus departments will advertise College Roll jobs on FITFORUM.
3. Contact campus departments directly to inquire about possible College Roll opportunities. Your academic department should be the first department that you contact to inquire about job openings. Other departments that typically hire College Roll students include all food service locations, the Bookstore, the Clemente Center, and the Information Technology department. **Please see the following job search tips to assist you in presenting yourself in the best possible way in your on campus job search.**
On-Campus Job Search Tips

**DO:**
- Develop a resume to present to hiring managers when inquiring about on-campus employment opportunities. The Career Services Office has many resources available to assist you in developing your resume including Optimal Resume located at [http://fit.optimalresume.com](http://fit.optimalresume.com) and on the Career Services Website located at [http://www.fit.edu/career/resumes/design.php](http://www.fit.edu/career/resumes/design.php). A sample resume is also attached.
- Approach campus departments in a positive and professional manner when inquiring about potential job opportunities. Suggested opening statement: “Good afternoon, my name is (your name). I am a new student at Florida Tech studying (your major) and I am currently searching for part-time employment. Does your department have any College Roll jobs available?” If the individual that you are speaking with says “no”, ask them if you can leave your resume with them for future reference and ask them if they can please consider you for future positions. If they decline to take your resume, politely thank them for their time and move on to the next office.
- Develop a network of individuals who may be helpful to you in your future job search by volunteering for campus activities and academic department activities and events. When jobs become available, hiring managers and faculty prefer to hire someone that they know and who has already demonstrated interest and skills in their activities.
- Work on improving your English communication skills (if necessary) to improve your chances of being hired.

**DON’T:**
- Demand a job. Most campus departments have limited funds available and if they are unable to offer you employment, thank them for their time and consideration and move on to the next office. Florida Tech is not obligated to offer employment to students.
- Apply for Federal Work Study jobs that you see advertised on CCN. International students are not eligible to apply for Federal Work Study jobs and some departments can only hire Federal Work Study students. You are wasting your time and the hiring manager’s time if you apply for these positions.
- Ask for a job on campus so you can get a Social Security Card and don’t accept a job on campus just to get a Social Security Card (then quit the job). This lack of commitment to the job will affect future employment opportunities for you and other international students.
Robert Student  
FIT Box 555  
Melbourne, FL 32901  
rsstudent@fit.edu  
321-555-5555

**OBJECTIVE:**  
A part-time position on campus utilizing my experience and education in Information Technology.

**EDUCATION:**  
Florida Institute of Technology  
Master of Science, Computer Science  
Anticipated Graduation: May 2011

Solved issues and implemented new tool features in C# using Windows platform applications

**HONORS:**  
Student of the Year  
ABC University Information Technology Department  
Received award for perfect grades in all classes as well as for service to the University
Off-Campus Employment

International students with F-1 Visas are eligible to work off-campus once they have been in F-1 status for one academic year. Employment for F-1 students is regarded by United States Customs & Immigration Service (USCIS) as **Practical Training**. To determine whether or not you are eligible to seek employment off campus, contact the ISSS Office at 321-674-8053 or go to their website [http://www.fit.edu/issm/employment/offcampus.php](http://www.fit.edu/issm/employment/offcampus.php).

If you have been in F-1 status for one academic year and are eligible to seek a job off campus through **Curricular Practical Training**, the Career Services Office can assist you in finding a co-op or internship position. You can register on CCN and apply for positions in the “internship” or “co-op” categories. Please note that in addition to meeting the eligibility requirements of the ISSS Office and USCIS, you must also meet the requirements of the Florida Tech Cooperative Education (Co-op) Program. Please ask a Career Services staff member for additional information regarding the Florida Tech Co-op Program if you are eligible to seek employment off campus.

**Off-campus employment of any kind cannot be pursued without the prior written authorization of either the ISSS and/or USCIS. Engaging in employment without authorization is considered a serious violation of immigration regulations.**
