License Agreement

License Agreement

You must agree to the non-exclusive license below in order to continue:

Thesis Submission Agreement

My Thesis and the abstract are my original work and do not infringe or violate the rights of others. I am the sole author of my Thesis and abstract. I further attest that the work described in this Thesis does not violate any non-disclosure agreements entered into by representatives of Florida Institute of Technology.

I acknowledge that Florida Tech has a royalty-free non-exclusive right to reproduce and distribute my Thesis, in whole or in part, in any format (electronic or otherwise) whether in existence now or developed in the future. Specifically my Thesis and abstract will be made accessible on the Florida Tech website through the Scholarship Repository and made freely available worldwide.

I understand that Florida Tech owns the intellectual property described in my Thesis. I acknowledge that Florida Tech, in its sole discretion, may elect not to distribute my Thesis or to subsequently remove it after it has been deposited.

Florida Tech acknowledges that this is a non-exclusive license; any copyrights in the submission remain with the author or other copyright holder and subsequent uses of the submitted material by that person(s) are not restricted by this license.

I have carefully read this Agreement, understand all of its terms, and enter into this Agreement.

By checking here you agree to the above license in its entirety.

Read over the Thesis Submission Agreement and accept it by checking this box. You can get a copy of the Thesis Submission Agreement on the [License Agreements](#) tab.

If you are a PhD/DBA student, read and accept the ProQuest License Agreement

PhD Students Only: Proquest Publication

PhD Dissertations Dissemination Agreement

This Agreement is between the author (Author) and ProQuest LLC, through its ProQuest dissertation business (ProQuest). Under this Agreement, the Author grants ProQuest certain rights to preserve, archive and disseminate the dissertation or thesis, abstract, and index terms (the Work) provided by Author to ProQuest.

License for Inclusion of the Work in the ProQuest Program.

Grant of Rights. Author hereby grants to ProQuest the non-exclusive, worldwide right to reproduce, distribute, display and transmit the Work (in whole or in part) in such tangible and electronic formats as may be in existence now or developed in the future. Author further grants to ProQuest the right to include the abstract, bibliography and other metadata in the *ProQuest Dissertations and Theses Global* database (PQDT) and in ProQuest's *Dissertation Abstracts International* and any successor or related index and/or finding products or services.

ProQuest Dissemination Program - Election and Elements. The rights granted shall be subject to the following additional requirements:

Redistribution of the Work. Except as restricted by the Author, the rights granted by the Author automatically include (1) the right to allow sale and distribution of the Work, in whole or in part, by agents and distributors, and (2) the right to make the Abstract, bibliographic data and any metadata associated with the Work available to search engines and harvesters.

Restrictions.

ProQuest will use commercially reasonable efforts to restrict the distribution of the Work as provided under the publishing option selected by Author or as later elected by Author through direct contact with ProQuest. Such election is subject to Author's Degree Granting Institution Directives (see below). With respect to restrictions requested after submission of the Work, Author acknowledges that ProQuest cannot recall or amend previously distributed versions of the Work.

Removal of Work from the Program.

ProQuest may elect not to distribute the Work if it believes that all necessary rights of third parties have not been secured. If Author's degree is rescinded, and the degree granting institution so directs, ProQuest will expunge the Work from its publishing program in accordance with its then current publishing policies.

The Author will retain the right to remove the work from the ProQuest program. ProQuest will remove the Work upon written request from the Author.

Degree Granting Institution Directives.

Author is solely responsible for any conflict between policies and directions of Author's degree-granting institution, Author's choice of publishing model, and/or any restriction Author places on the use of the Work. For the avoidance

Degree Granting Institution Directives.

Author is solely responsible for any conflict between policies and directions of Author's degree-granting institution, Author's choice of publishing model, and/or any restriction Author places on the use of the Work. For the avoidance of doubt, ProQuest is not responsible for access to the Work that is provided by Author's degree granting institution through its library or institutional repository. Author must work directly with Author's degree granting institution to ensure application of any restrictions to access relating to the Work by Author's degree granting institution.

Rights Verification.

Author represents and warrants that Author is the copyright holder of the Work and has obtained all necessary licenses for any nonpublic, third party software necessary to access, display, or otherwise use the Work. Author is solely responsible and will indemnify ProQuest for any third party claim or damages submitted for publication.

Publishing Fees and Royalties.

Under this agreement no publishing fee is charged by ProQuest to the author or the author's institution.

ProQuest will pay royalties of 10% of its net revenue from sales of the Work to the Author, contingent upon maintaining a current address on record with ProQuest by contacting authorinfo@proquest.com. Royalties will be paid when accrued earned royalties reach \$25.00 USD. If, after 25 months, accrued royalties do not accrue to at least \$25.00 USD, ProQuest's royalty payment obligation will cease.

Acknowledgement: I have read, understand and agree to the ProQuest Agreement, including all rights and restrictions.

I am requesting that ProQuest provide additional free non-exclusive distribution via the ProQuest Dissertation & Theses Database (PQDT), which reaches 3,000 universities with over 200 million searches annually, and supports discovery through major subject and discipline indexes (SciFinder, MLA, MathSciNet, PsycINFO, etc). I also will be eligible for a royalty based upon sales of my full-text work. More information is available here.
