APPLYING FOR A UNITED STATES SOCIAL SECURITY NUMBER

Florida Tech students and scholars who are actively employed on campus need to apply for a Social Security number (SSN) for the purposes of filing taxes at the end of the year.

The Social Security number is used by the United States government to identify wage earners for tax purposes. The FIT ID number assigned by Florida Tech to new international students and scholars is not a valid United States Social Security number. Visit www.ssa.gov/pubs/10181.html for additional information about international students and Social Security numbers. Please note that international students are not eligible to apply for a Social Security number unless they have secured on-campus employment.

You should wait until you have been in the United States for at least ten (10) days before applying for a social security number. This will allow enough time for your immigration information to be entered into the system, which is then verified by the Social Security Administration.

You will need to take the following documents with you to the Social Security Administration when applying for your Social Security number:
- Completed “Request for Social Security Card” form (on reverse)
- Your valid passport
- Your student visa
- Your original form I-20, DS-2019, or I-797
- Your Form I-94, record of arrival/departure, which can be retrieved from the following link: https://i94.cbp.dhs.gov/I94/request.html

It may take two (2) weeks or more for your Social Security card to arrive in the mail. Keep your Social Security card in a safe place. Theft of Social Security numbers is not uncommon and may allow the thief to use your identity to establish credit, sign contracts, or purchase items for which you could be liable.

Miscellaneous Information about Social Security Numbers and Taxation
As soon as you receive your Social Security number, it is your responsibility to provide a copy of your SSN card to the Office of Human Resources at Florida Tech. In order to ensure you are taxes correctly, Florida Tech is required to collect data from international students and scholars on their citizenship, country of residence, length of stay in the United States, etc. NOTE: if you do not provide your number to the Office of Human Resources within 90 days, your work authorization will be terminated.

IRS (Internal Revenue Service) Taxpayer Identification Numbers (ITIN)
Foreign nationals not authorized to work in the United States because of the type of visa they hold are not eligible for Social Security numbers. However, these individuals are eligible to apply for an Individual Taxpayer Identification Number (ITIN) through the IRS. To apply for an ITIN, complete IRS Form W-7 (available at http://www.irs.gov/file_source/pub/irs-pdf/fw7.pdf).
