

Florida Institute of Technology

Lifelong Scholar Society 2017 Membership

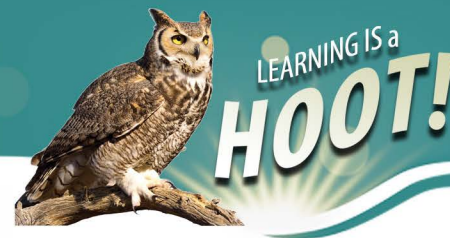

Florida Tech's Lifelong Scholar Society annual membership provides a community of curious minds who are passionate about sharing knowledge with the opportunity to explore interesting and varied topics. Throughout the year, the society hosts a series of lectures, workshops and socials around Florida's Space Coast. Topics range from historical writers and contemporary art to the Florida habitat, space exploration and more. Join us and become part of a world of interesting people.

Your membership in the Lifelong Scholar Society is what makes it possible for us to continue offering engaging and inspiring lectures to the community, as well as the dinners and social events your membership gives you the opportunity to attend. Please support the Lifelong Scholar Society through your membership at one of the three membership levels: bronze, silver or gold. Much like public radio, it is only through the generosity and continued support of our members that we are able to keep this nonprofit program alive and thriving.
