The information they contain has not been included for promotional reasons, nor has any information been purposely left out or omitted. Local businesses and the students who use them are welcome to submit suggestions for new directory listings to be included in future editions of this publication by writing to mkucharyson@fit.edu.
Welcome!

Congratulations on your admission to Florida Tech and on your decision to attend this wonderful university. On behalf of FIT Orlando, I welcome you to a diverse community of faculty, scholars and staff committed to your success. We are delighted you have chosen to study here.

Leaving your home country, family and friends and introducing yourself to a new culture may lead to anxiety and apprehension. But rest assured that we here to help make your transition as smooth as possible.

Our staff is comprised of people who are dedicated to the well-being of international students. We have extensive training and experience helping students like you meet their educational goals and objectives.

If you need assistance interpreting U.S. Citizenship and Immigration Services (USCIS) regulations, we do that too.

I hope this International Student’s Resource Guide answers your questions and provides you with access to the resources you need to make the transition from your home country to the United States and Florida Tech. If you have more questions or require further assistance, please contact us.

Again, congratulations and welcome to Florida Tech. I look forward to meeting you!

Sincerely,

FIT Orlando Faculty & Staff
2420 Lakemont Avenue, Ste. 190
Orlando, FL 32814

Frequently Asked Questions
There is a lot of useful information in this handbook—it covers everything from obtaining your visa to where to shop and dine in Orlando, Fla. But if you’re like most people, you won’t take the time to read it unless your most pressing questions are addressed first. Well, you’re in luck!

International students’ most frequently asked questions are answered here:

**Q** How do I apply for a student (F-1) visa to come to the United States?

**A** Please visit [http://travel.state.gov/visa/visa_1750.html](http://travel.state.gov/visa/visa_1750.html) for visa application information. The procedure is slightly different from one U.S. consulate to another, so you will want to read the information for the particular consulate that you plan to visit.

**Q** When may I arrive?

**A** The U.S. consulate or embassy abroad can process your visa up to 90 days before the start date of your academic program. You may enter the country as early as 30 days prior to the program start date that is noted on item #5 on your I-20 or item #3 on DS-2019. You will not be expected to arrive on campus, however, until the arrival date on your I-20 or DS-2019.

**Q** What should I do when I arrive at Florida Tech?

**A** In accordance with immigration regulations, you must provide us with copies of your immigration documents upon arrival. These regulations apply to students from outside the United States, as well as to students transferring to Florida Tech from another U.S. school. Questions about class registration, student ID cards and getting settled on campus will be answered during orientation, which is mandatory for all new and transfer students.

**Q** I don’t have anywhere to live when I arrive. Who can help me?

**A** We have compiled a list of places to live in Orlando close to campus. Also, there are hotels listed that are nearby if you need to stay at one for a couple days when you first arrive.

**Q** May I enroll in online courses?

**A** U.S. federal regulations limit the number of online courses that an F-1 student can count toward a full-time course load during a required term. For further details regarding the restrictions on online courses, visit [www.fit.edu/iss/online_education.php](http://www.fit.edu/iss/online_education.php).

**Q** I want to come to Florida Tech as a vocational student in FIT Aviation’s flight program. Is that possible?

**A** Yes. For full details of the M-1 Vocational Visa Program, visit [www.fit.edu/iss/m-1](http://www.fit.edu/iss/m-1).

**Q** Is there public transportation available in Orlando?

**A** Because our rail and bus systems are limited, many Americans own cars. However, owning and operating an automobile in the United States can be a task.
Am I required to have health insurance?

There is no socialized or national system of health care in the United States and medical treatment is expensive. All Florida Tech students are required to have appropriate medical insurance coverage. As part of your tuition and fees, you will be charged for student health insurance and you will be automatically covered through Florida Tech’s health insurance plan.

What do I do if I want a family member to visit me?

FIT Orlando will assist you in bringing your spouse and children to the United States. The process includes requesting completion of forms I-20 or DS-2019, along with financial documentation. The process is very similar to when you obtained your visa, since your family will be required to apply for the F-2 or J-2 visa from the U.S. embassy in your home country. If you would like to invite family members to visit for a short period of time on a visitor’s visa, we can assist you in that process as well.

Can I work while in the United States?

If you want to work off campus, you will have to apply for permission and F-1’s may not work off campus during the first nine months of a program of study.

How do I obtain a social security number?

A social security number will only be issued with verification of an offer of employment. Information on how to apply for a social security number will be covered during orientation.

Do I need to pay taxes?

Every year, international students must file documentation with the Internal Revenue Service, even if they have not worked in the United States. We provide all international students with up-to-date information and resources, as well as complimentary nonresident income tax filing software to assist you in filing your income tax return forms.

Do I have to be enrolled to stay in the United States? What about during the summer?

U.S. Citizenship and Immigration Services (USCIS) requires all international students in F-1 status to maintain full-time enrollment status throughout their program of study. Further details of this requirement can be found in the “Your immigration responsibilities” section of this handbook. Unless it is your first semester, you do not have to be enrolled in the summer. Summer is considered your official “vacation time” from school, so you may remain in the United States and not be enrolled.

May I transfer to another university?

Florida Tech policy states that you are required to attend for one full semester if you enter the United States on an I-20 from Florida Tech. Florida Tech will not release a student until he/she completes one semester of attendance.
You have received your acceptance letter to Florida Tech and your Certificate of Eligibility of Nonimmigrant Visa. Now what?

Confirm Information
First, make sure all of the information on your certificate (either Form I-20 or Form DS-2019) is correct. If any of the information is inaccurate, it is urgent that you fax a copy of the passport identification page with an explanation of the error to the university’s office of admission. You will be sent a corrected certificate before your consular interview.

Fulfill Medical Requirements
It is your responsibility to have your physician complete the medical history form you may access via your Panther Pass account.

In addition, you must provide proof that you have received two (2) measles-mumps-rubella (MMR) vaccines and one (1) varicella (chicken pox) vaccine. Students at high risk for tuberculosis (TB), or from areas of the world where TB is endemic, are required to be screened for TB prior to attending classes. All students are to be vaccinated for Hepatitis B and/or meningitis before their arrival at Florida Tech, or within their first semester of enrollment. All students must show proof of immunization with a valid shot record issued by a physician, health department or other government agency (depending on country of origin).

If you have not received the required immunizations by the time you arrive on campus, you must do so within the first two weeks after your arrival at Florida Tech. Failure to show proof of immunization or to receive the vaccinations will result in cancellation of current registration and prevent any future registration.

As an international student who will be living in the United States, it is also a good idea to plan for medical situations (including emergencies) that may arise during your stay in the United States. To prevent complications, it is in your best interest to obtain copies of your medical records and prescriptions, to pack an adequate supply of prescribed medications (in original packaging) and to translate important medical documents into English, if necessary.

Obtain Visa
It is important to remember that you must obtain a visa that is appropriate to your purpose for entering the United States, usually an F-1 or J-1 student/scholar visa. In other words, if you are coming to the United States to attend Florida Tech, you should not enter the United States with a tourist visa (B1/B2) or via any other visa waiver program between your country and the United States. You will not be permitted to attend Florida Tech if you do not hold a student/scholar visa.

The first step in obtaining a visa is to make an appointment with the U.S. embassy or consulate responsible for issuing nonimmigrant visas for your home country, which may and should be done as soon as you receive your I-20 or DS-2019. Visa applications may be issued up to 90 days before your program start date. Visit http://usembassy.gov for a list of consular post websites.
If for some reason you are unable to schedule an interview with a consular officer until after the start date for your program (notated in section 5 on the I-20 or section 3 on the DS-2019), you should contact the Office of Admission. Depending on the circumstances, the university may have to issue you a new I-20 or DS-2019 or defer your attendance until the following semester.

After scheduling your appointment, you should:

- Complete a visa application and, when applicable, forms DS-156, DS-157 and DS-158, which can be found at http://evisaforms.state.gov
- Have photographs taken (requirements at http://travel.state.gov/visa/temp/info/info_1287.html)
- Obtain valid passport (must be valid at least six months from your date of entry into the United States)
- Compile evidence of ties to your home country that demonstrates your intent to return home (i.e., assured employment, ownership of property, etc.)
- Pay the Student and Exchange Visitor Information System (SEVIS) fee and keep receipt. This fee must be paid at least three days before your appointment with the embassy. More information about the SEVIS fee can be found at https://www.fmjfee.com/index.jhtml.
- Obtain I-20 or DS-2019 for spouse or dependent(s) who will accompany you to the United States

During your appointment, you will be asked to provide evidence (receipts, photos, passport, documentation, etc.) that you have completed all of the above. In addition, you will need to provide:

- Applicable visa fees
- Your I-20 or DS-2019 form

- Proof of funding
- Evidence of spouse’s and/or dependent’s relationship to you and evidence of sufficient financial resources to support them

While each embassy or consular post has their own visa application procedures and processing times, the requirements above are standard. It is a good idea, however, to consult the office where you will apply for specific details regarding documentation and procedures.

When it comes time for your interview, make sure to arrive at the consular post prepared. You should:

- Dress professionally
- Bring translated copies of your academic records with you
- Be ready to talk about your academic plans and aspirations in detail
- Be knowledgeable about Florida Tech, the academic department you are entering and the professors with whom you hope to study
- Be prepared to talk about your career goals (which should indicate your intent to return home)
- Have all required documents with you and have them organized

Once you have been issued your visa, check to be sure that you have been issued the correct visa (an F-1 or M-1 if you have an I-20; a J-1 if you have a DS-2019) and that your visa indicates your school of choice: Florida Institute of Technology. Also be sure to check that your correct name and date of birth are recorded as they appear on your I-20. You will receive a sealed envelope containing your I-20 or DS-2019—DO NOT OPEN IT. The officer at the port of entry (POE) will open this envelope when you enter the United States.
Preparing to Leave Home

Immigration laws limit your arrival into the United States to no more than 30 days prior to the report date listed on the Form I-20 or DS-2019.

If you are a citizen of Canada, you do not need a visa to enter the United States. However, you still need to present your I-20 or DS-2019 form and a valid passport at the U.S. Immigration border crossing or port of entry. You must also present proof of payment of the SEVIS fee.

Make Travel Arrangements

When making air travel plans, it is recommended that you schedule at least three hours at your initial port of entry into the United States, before your connecting flight into Orlando, to allow sufficient time to pass through immigration and customs inspection and to change currency if needed. New security procedures have slowed this process.

From the Orlando airport, it is about a 25-minute drive to the Florida Tech Orlando campus.

Pay close attention to the “no later than” date in section 5 on the I-20 and section 3 on the DS-2019. You are required to attend Florida Tech by this date.

What to Bring

Basic items of clothing are recommended, as well as a few family photos and personal hygiene belongings. If you wear glasses or contact lenses, you should bring a copy of your eye prescription with you. Dress is informal at Florida Tech. Classrooms and residence halls are air-conditioned. Many students might want to bring a sweater or sweatshirt when in class. In addition, we ask students to consider bringing national dress, instruments, crafts or other traditional materials with them for cultural events on campus. Shopping trips to local stores will be provided to pick up items such as bedding, towels and other items you may want to use to decorate your living area.

Pre-Departure Checklist

- Confirm admission to Florida Tech by returning your Attendance Confirmation form and $300 deposit
- Complete all other enrollment requirements as outlined on Panther Pass
- Decline admission offers from other universities and return any official forms
- Check the validity date of your passport
- Carefully read and understand your I-20 or DS-2019
- Pay SEVIS fee at least three days before your visa appointment
- Apply for your student visa at the U.S. embassy
- Buy traveler’s checks or obtain enough cash (U.S. dollars) to cover your expenses for a few weeks (must declare with customs if $10,000 or more)
- Obtain copies of medical records and obtain any prescription drugs you need
- Make travel arrangements (only after receiving your visa)
More Things to Bring or Buy

In addition to the basics, you may be interested to know what typical American college students either bring to college or purchase once they arrive. This checklist may help you better determine what you need to bring from home as well as what you want to buy when you get here in order to feel comfortable and have fun.

While there may be some procedures or policies you were not expecting, you will be fine as long as you take your time, have your documentation ready and in order and ask for help when you need it.

**Immigration Documentation**

Do not pack your passport, I-20/DS-2019, financial documents, acceptance letter or other important papers in your luggage. You should carry these items with you during your trip as they will be needed when you arrive at your port of entry.

Upon arrival, you will need to present your passport, valid visa and I-20 or DS-2019. Remember, your passport must be valid for at least six months after your entry date. Be prepared to submit proof of finances if asked.

If the officer at the port of entry cannot initially verify your information, you may be directed to an interview area for secondary inspection, where you will have your documents examined and be asked some questions. Do not be alarmed. This is routine for students/scholars. If for some reason, the immigration officer believes your immigration documents to be unsatisfactory, you may receive a form I-515A. If you do, bring it to your DSO as soon as you arrive. Do not mail any immigration documents before consulting with a member of our staff.

If you are subject to special registration and have a federal identification number (FIN) listed in your passport near your visa, be sure that you receive information from the port of entry officer regarding port of departure procedures that will apply to you.
Getting to Florida Tech from the Airport

To get from Orlando International Airport, which is approximately 25 minutes away from campus, to Florida Tech, you may choose from among several available options. You may use the shuttle services at the airport or hire a taxi, which is more expensive. The most economical way is to use the shuttle services offered at the airport.

If you arrive early (before the required date of attendance listed on your I-20 or DS-2019), then arriving early should not be a problem as long as your landlord or apartment complex expects you.

Orientation and Check-in

Several things need to be completed in order for you to transition into the university. Panther Pass is the key to completing all necessary processes. You can complete all processes at your own pace; however please start early as many will take some time to complete.

The Panther Pass program is designed to take you step by step through the process of checking in to the university. Your goal should be to complete the entire process before your arrival on campus. Completion prior to your arrival will ensure that you are prepared for university orientation and will reduce waiting time at university orientation.

Temporary Places to Stay

Is it possible to arrive too early? Yes. Remember, the port of entry will not allow you into the United States more than 30 days before the start date indicated on your I-20 or DS-2019.

Orientation will begin promptly after check-in and you will be well on your way to registering for classes and settling in.

Your Arrival

Detailed orientation schedules will be given to you at the time you check-in.

The following items will be needed when you check-in with FIT Orlando:

- I-20/DS-2019
- Passport
- Visa

If you have a spouse or dependent(s) with you, their documentation will be required at check-in as well. Unfortunately, failure to check-in with FIT Orlando at orientation will result in your being reported to immigration as “not in attendance” and will result in loss of your immigration status. So make sure we see you at check-in!
FIT Orlando Housing
We have compiled a list of websites that will assist you in finding an apartment. Apartment rentals vary in price. Be prepared to pay $800 to $1,350 a month plus a deposit, first and last month’s rents and various other fees. Some apartment rentals are all-inclusive, meaning your water, garbage removal, heat and possibly some other amenities are included in your monthly price; other rentals are not. Also, be prepared to pay deposits for electricity, telephone and other services.

Most housing requires a one-year lease. Read your lease agreement carefully before signing it and know the rules and regulations of the apartment. A lease is a binding contract and you may be liable for the remaining amount of your lease and/or loss of your deposit if you end your contract early.

**More options can be found by searching on the internet or asking your advisor.
Rental Terms You Should Know

**Landlord:** An owner of residential premises or his agent who is authorized to manage the residential premises and to receive rent from a tenant under a rental agreement.

**Lease:** A written agreement giving the tenant the right to use the landlord’s property, with stipulations about rent, rent payment date, length of occupancy, number of person to occupy premises, rules and regulations regarding pets, storage, etc.

**Property Manager:** Authorized representative of landlord

**Rental Agreement:** Any written agreement or lease specifying rental terms and conditions

**Security Deposit:** A monetary deposit made to a landlord that holds a tenant to the terms of the rental agreement

**Sublease:** The tenant assigns less than the entire property or assigns all of the property for less than the full remaining period. However, the original tenant remains obligated for contracted responsibilities.

**Tenant (Lessee):** A person entitled in a rental agreement to use and occupy the residential premises

**Term:** The time period during which a landlord agrees to rent the property and a tenant agrees to pay rent for that property

**Termination:** Ending a lease or rental agreement, either because the lease or rental agreement has come to its end or because both parties agree to bring the lease or agreement to an end

Local Services

**Electricity**
Orlando Utilities Commission requires a deposit that varies according to a customer’s credit rating. An initial service charge is included on the first bill. To receive OUC service, call 407-423-9018 any time or go to www.ouc.com.

**Gas**
Florida City Gas supplies natural gas to most of Brevard. A $50 startup fee is required. To begin gas service, call 800-993-7546 or visit www.floridacitygas.com.

**Cell Phone**
There are several cell phone companies to choose from: AT&T, Verizon, Sprint, T-Mobile and many others.

**Water, Sewer, Trash**
Charges for sewer, water and trash vary throughout the county. Deposits are required. Call 772-664-5916.
Overview of the Orlando Area
Located the heart of Florida, the city of Orlando is about a half hour drive from Disney World and Universal Studios. Orlando's weather is warm and humid. The temperature in January ranges from 35°F (1.67°C) to 80°F (26.7°C). July temperatures range from 70°F (21.1°C) to 95°F (35°C). The average rainfall per year in Orlando is 40 inches (1.016 meters).

Transportation
LYNX provides inexpensive public transportation in Orange County through fixed-route bus systems. The routes include stops at major shopping centers, government centers, social service agencies, colleges, universities and hospitals. Weekend and evening service is also available in some areas. In addition, there are several taxi services around town and a Greyhound bus station.

Because Orange County's public transportation is fairly limited and not as comprehensive as in many other countries, international students may also choose to purchase a car or motorcycle, which would require licensing. Many students choose bicycling, as it is an easy and affordable form of transportation in and around campus. Used bikes can be purchased from other students or through the newspaper. Cyclists must comply with driving regulations and are encouraged to wear helmets.

Getting Around
For LYNX bus routes, visit www.lynx.com.
For Greyhound schedule and ticket information: Call 407-292-3424 or visit www.greyhound.com.
For Mears Taxi Transportation, visit mearstransportation.com.
For Uber and Lyft download the app.
For Zipcar, visit zipcar.com.
For Juice Bike Share, visit orlando.socialbicycles.com.
Driving in the United States

Students deciding to purchase an automobile and drive in the United States should be aware that laws of vehicle registration, licensing of drivers and traffic regulations are written and enforced by each individual state. Drunk driving laws are strictly enforced in the state of Florida. It is extremely important that you know the rules and regulations of driving.

In short, you must:
• Obtain a license
• Register your vehicle
• Secure auto insurance

All operators of a motor vehicle must have a valid driver's license. To obtain a driver's license, documents must be presented to a Department of Motor Vehicle (DMV) office. For a full listing of eligible documentation, visit www.flhsmv.gov.

You will be required to pass an eye exam and a written test. A car is not necessary to obtain a driver's license. The DMV office is extremely busy; it may be wise to make an appointment to avoid long, long lines. When you are issued a driver's license, it will only be valid until the end date on your I-20 or DS-2019.

In addition to obtaining a license, you must also register your vehicle within 10 days of establishing residency. In order to register your vehicle, you must provide proof of vehicle insurance and a completed Form 82042 (vehicle identification number and odometer reading). You will also need to provide personal documentation such as your passport, I-94, driver's license, I-20 or Form DS-2019.

If you are buying a new car from a car dealership, the dealership may take care of the car registration for you. If not, they will usually provide you with the forms that you need to take to the registration office. If you are buying a car from a private citizen, you will need to make sure that you receive a bill of sale and the title from the previous owner.

All drivers in the United States are required to have car insurance. Accidents can happen at any time. A relatively small automobile accident can be very expensive. In the event of an accident, automobile insurance will save you money, worry and it will protect you from potential lawsuits. Cost of coverage varies depending on insurance company, age of the car, age of driver(s), number of drivers and other factors.

Health and Safety

The United States does not have a national health care system. Health care costs, even for minor illnesses or accidents, can amount to thousands of dollars. All Florida Tech students are required to have appropriate medical insurance coverage and will be charged for student health insurance as part of their tuition and fees. International students will be automatically covered through Florida Tech’s student health insurance plan.

All students seeking information regarding health insurance benefits and specific details of their coverage should visit www.fit.edu/isss/healthinsurance.php or contact the university’s health insurance representative at 321-674-8280.

It is mandatory for all international students to be covered by the university’s health plan. Exceptions may be granted only if the student has an insurance plan that meets very strict requirements in order for them to qualify for the waiver. Students may request a waiver of this university insurance fee by completing the form (on Panther Pass) and providing proof of appropriate insurance to Campus Services within the first two weeks of the beginning of class. If proof of insurance is not provided, students will be billed for Florida Tech’s student health insurance. Florida Tech will not accept coverage by an insurance company outside the United States. Before enrolling for coverage in any insurance plan other than Florida Tech’s student health plan, please check with Campus Services (www.fit.edu/campus_services) to verify if it meets the waiver requirements.

All international students who are married or single parents who have one or more children living with them may purchase health insurance for these dependents by completing the appropriate form in the Campus Services Office and paying for the additional insurance at the student accounting office in the comptroller’s office. The student health insurance fee will be refunded and coverage will be canceled if the student pays for coverage and subsequently does not enroll or withdraws from the university within the first two weeks of classes.
Bringing Your Family

Before you decide that your spouse and/or children should accompany you to the United States, you should be aware that it may be expensive. Major costs include off-campus housing, childcare and insurance. While there is a bus system servicing the surrounding area, it is limited and it is the only public transportation system in the area. Finding housing near a bus line can be very difficult. Spouses may feel isolated and alone.

Childcare or after-school care centers are expensive and usually have a waiting list. It may not be possible to find a center to take care of your child immediately.

Family members who accompany you must be covered by medical insurance, which is not included in your university health fee. You will need to demonstrate your ability to cover their living expenses while in the United States. We estimate expenses as $5,000 per year for the first family member, $7,500 for two and $10,000 for three or more dependents. U.S. consular officials may require proof of your ability to cover these expenses for the duration of your academic program. Dependent spouses of international students in F-1 status are not eligible to be employed in the United States under any circumstances. We strongly recommend that spouses and/or children not accompany you to the United States until you have completed one academic year.
Education in the United States

Public schools in the United States provide free education for children between the ages of five and eighteen. To enroll your children in public school, please contact Orange County Public Schools at 445 W. Amelia St., Orlando FL 32801 or visit www.ocps.net. To register a child for the first time in any Florida school, you will need:

- Child’s birth certificate
- Immunization records on HRS 680 form for MMR (mumps, measles and rubella), DPT (diphtheria, pertussis and tetanus) and OPU (polio)
- Proof of physical examination within the last year, or one scheduled within 30 days
- Proof of residence, including lease or rental agreement, utility bill, etc.
- Every first grader must provide evidence of successful completion of kindergarten

You may register your child at any time. Each school has a designated attendance area and the family's address determines which school the student will attend. Contact the Orange County Public School's Office to determine which school your child will attend.

Orlando Area Public Schools

Audubon Park Elementary

Bringing Dependents to the United States

In order to bring dependents to the United States, you must be maintaining status as an F-1 or J-1 student and must show that you have sufficient finances to support your family here without any of them being employed. Your spouse and unmarried minor children (under age 21) are eligible to apply for F-2 or J-2 visas. No other family members are eligible.

To begin, provide your DSO a copy of your passport, Form I-94, your Form I-20 or DS-2019 and evidence of your financial support for your family (currently $5,000 for spouse and $2,500 for each additional dependent). After review, a dependent Form I-20 or DS-2019 will be issued for the purpose of bringing your family to the United States. You will then need to send them to your family with instructions for them to apply for F-2 or J-2 visas at the U.S. consular office. In addition to the Form I-20/DS-2019, they will have to present valid passports, evidence of their financial support, evidence that they intend to return to their home country at the conclusion of your studies in the United States and any other information that the consular officer specifies.

If the consular officer is satisfied that your family members are bona fide student dependents who intend to return home and that they have sufficient funds for their support here, he or she will issue F-2/J-2 visas to them. Your dependents may then come to the United States and will be admitted to the country for duration of status. That means they may remain here with you until you complete your studies. Your family may remain in the United States in F-2 or J-2 status only while you are here in F-1 or J-1 status.

A note of caution: Do not allow your family to come to the United States in any other immigration status or before they have received the Form I-20 or DS-2019 and F-2 or J-2 visas. If they do, they run the risk of being denied admission to the United States at the port of entry and will be required to return home.
Money Matters

Overview
Your I-20 or DS-2019 was issued to you based on the funding information you provided. Please remember that funding varies from student to student year to year; some students require more money than others depending on course of study and interests. You should not assume that you can get by on less funding than is indicated on your I-20 or DS-2019.

Housing deposits, rent, household necessities, tuition, books and supplies will require major expenditures after your arrival. We recommend that you bring at least $5,000 in U.S. dollars to cover your initial costs. The safest way to bring money with you is in the form of traveler's checks. You may also choose to bring a bank draft or a check to deposit into an account that you can open at a local bank. Please note that it may take a few days for a check to “clear” and the monies you deposit may not be immediately available for you to use.

Money management is one of the greatest challenges that international students and scholars face when they arrive in the United States. Most students and scholars live on a limited budget. You must get used to a new currency, adjust to the value of a dollar and estimate living expenses. The best practice is to start budgeting from the moment you arrive. If you intend to live off campus, you will need to keep in mind that you will have “start-up” costs when renting a place to live. Bills often take a month or two to arrive so be prepared and do not spend more than you can afford.

University Expenses
Students are responsible for making all necessary payment arrangements with the university through the Office of the Bursar. All students are expected to either pay their full semester’s expenses or contract a payment installment plan. Students making full or contractual partial payments may pay online by credit card or by cash, check or credit card at the Office of the Bursar. For further information, contact the Office of the Bursar, 321-674-7428, toll free in the U.S. at 800-676-9250 or online via ACCESS (TRACKS user name and password are needed).

Whether you receive an assistantship from the university, a scholarship from an outside agency or family support from abroad, if for any reason you are not prepared to make payment at the required times you must consult the supervisor of Student Accounting to finalize your registration. Students receiving scholarships from their home government or other agency may arrange for direct sponsor billing tuition, fees, insurance, room and board.

Failure to make payment arrangements may result in deregistration and ultimately lead to problems with your immigration status. A student may not register for a subsequent semester until all financial obligations for the current semester have been met.

U.S. Currency
U.S. currency is based on the dollar ($1), which is comprised of 100 cents. There are six denominations of coins and six denominations of bills representing different amounts.
U.S. Coins

Penny: the only brown coin; worth 1 cent
Nickel: a silver coin; larger than a penny; worth 5 cents
Dime: the smallest U.S. coin; silver in color; worth 10 cents
Quarter: a silver coin; larger than a nickel; worth 25 cents
Half-dollar: the largest U.S. coin; not commonly used; worth 50 cents
Dollar coin: a silver coin slightly larger than a quarter; not commonly used

U.S. Bills

There are $1, $5, $10, $20, $50 and $100 bills. They are all similar in size and color, although the U.S. Mint is in the process of changing the appearance of the bills. The easiest way to identify them is just by looking at the number printed on the bill.

Opening a Bank Account

Once you arrive at Florida Tech, you will want to open a bank account. During orientation, it may be possible to find local bank representatives on campus to provide you with information outlining their bank's services. When you do open an account, you will need to take your student ID card, your I-20/DS-2019, your passport and the funds that you wish to deposit. Open a checking account so that you can write checks to pay your bills each month and pay for items you wish to purchase.

Some students also wish to open a savings account. Some savings accounts pay interest each month on the amount

Everyday Expenses Estimator

Note, these are only estimates

In addition to tuition and fees, you will incur everyday expenses to pay for food and other necessities, as well as for luxuries and entertainment. Here are some typical costs students must consider:

Books and Supplies: from $800 to $1,500 a year
Cable TV: $65 a month (if not on campus)
Cellular Phone: from $50 to $100 a month depending on service
Clothes: at least $10 per item depending on where you shop
Internet Access: from $25 to $60 a month depending on service
Groceries: about $50 a week for one, up to $150 a week for a family
Health Services: about $200 for a routine doctor's visit (if not covered by insurance)
Meals (restaurant): from $10 to $25 a meal
Movies: $5 with a student ID, and up to $8.50
Personal Transportation: anywhere from $2,500 to $10,000 for a decent used car, $80 a month for gas, insurance from about $1,000 to $3,000 a year
Public Transportation: about $6 for a taxi ride to the mall, ten-ride bus pass for $5
Rent (apartment): from $650 to $1,200 a month depending on location
Taxes: sales tax is 6%
Telephone (off campus): $30 a month for unlimited local basic service, $40 a month for unlimited long distance
that is in the account; others do not. You can withdraw money as needed from a savings account, but you cannot do so by writing a check. Many banks offer debit cards, also known as check cards, when you open a checking account. The card will come with a personal identification number (PIN). Do not let anyone else know your PIN and don’t let anyone use your card. The debit card allows you to make purchases and have the purchase amount automatically deducted from your checking account balance. It can also be used to withdraw money from an automated teller machine (ATM). Remember, debit cards are not credit cards—you can only spend the amount of money you have available in your checking account.

**Credit Cards**

Banks, websites, department stores and gasoline companies all issue credit cards that can be used to buy goods when you do not have money available at the time. You are billed each month and are required to pay at least a portion of your balance each month. If you do not pay the entire balance, interest (or finance charges) accrues on the unpaid balance. Interest rates are extremely high. Credit cards are convenient, but they can be costly if you are not careful.

**Transferring Funds to the United States**

There are several options available to help you transfer funds from your home country to the United States to cover your expenses for the year. You should check with your bank to discuss the solution that best suits your needs.

Some of the most efficient and effective ways to transfer funds include:

- Traveler’s checks
- Bank checks (also called cashier’s checks) drawn on a U.S. bank in U.S. dollars
- Wire transfer from your bank at home to your U.S. bank

**Taxes**

**Sales Tax**

Nearly every item that you buy, except medicine and some basic grocery items, will have sales tax added to its price. In the Melbourne area, sales tax is approximately 6%. You should not rely on the price that you see on an item’s price tag because most of the time you will need to add sales tax to that price.

**Federal Income Tax**

Collection of Federal Income Tax in the United States is the responsibility of the U.S. Internal Revenue Service (IRS). Foreign students in the United States are subject to federal income taxation on any wages earned in the United States. In addition, all students must pay taxes on teaching, graduate and research assistantships. More detailed information about taxes will be provided to you upon your arrival at Florida Tech.

**Social Security Number (SSN)**

Everyone who has earnings in the United States must obtain a Social Security number, the number used by the U.S. government to identify wage earners for tax purposes. It should be noted that recent legislation passed by the Social Security Administration does not allow foreign students to apply for a Social Security number, unless they can provide evidence of employment in the United States.
We recommend that you attempt to “step outside” yourself, to observe your own reactions to being in a new culture and then to compare these reactions with those of other people from different countries. Your observations can result in an increased self-understanding and may help you to gain insights into the various factors that have made you who you are. If you are able to keep the perspective of an outside observer while undergoing an unusual experience, you will be able to prevent yourself from becoming extremely anxious or depressed and can learn more from the intercultural experience.

**Culture Shock**

Some new students experience culture shock when they first arrive. Culture shock is the feeling of disorientation and confusion that often occurs when a person leaves a familiar setting and moves to an unfamiliar place. The climate and terrain, the language, customs, food and the culture are different. It is harder to convey your feelings and personality in a different language than your native one. You may feel lonely and may have doubts about your decision to come to the United States. Signs of culture shock include interruptions in normal sleep patterns, anxiety, frustration and excessive anger over minor issues. It is common to become dependent on fellow international students who are experiencing the same feelings and have the same language and customs.

**Thinking About Going Home**

After first arriving in America, it is natural to spend time thinking about the new country and your reactions to it. However, it is helpful to try to keep in mind that you will be going home after finishing your degree. It is advisable to remember that you will change while you are here. You will learn new ideas, adopt new attitudes and behave in new ways. At the same time, things will be changing in your home country. Family members, friends and professional colleagues will have experiences that you will not share and they also will develop new ideas, attitudes and ways of behaving. Social, political and economic situations may change also. This means that when you return home, things will not be as you remembered before you left. You will need to adjust to a “new” culture again. This readjustment will be easier if you prepare yourself before you return home. Try to keep your expectations realistic. Try not to pass judgment on people and situations you will encounter after going home. You may experience culture shock all over again.
Maintain Perspective
You should remember that thousands of individuals
who have come to Orlando and Florida Tech from other
countries have felt the way you feel, and they survived!

Evaluate Expectations
Ask yourself if your reactions to the culture are the
product of the way things are, or the way you expected
them to be. Usually it’s a combination of both.

Keep an Open Mind
People here may do or say things that people in your
country would not do or say. It is important to realize
that people here are acting according to their own set of
values, not according to the values of your country.

Avoid Being Judgmental
Try to avoid evaluating or judging others’ behavior
according to standards of your country. This may make
it easier for you to adapt to your new environment. Visit
your DSO. A discussion with your DSO can help you to get
a useful perspective on culture shock and how it can be a
useful opportunity for personal growth.

Learn from the Experience
Moving into a new culture can be a fascinating educa-
tional experience. It gives you the opportunity to explore
a new way of living and compare it to your own. There is
no better way to become aware of your own values and
attitudes and to broaden your point of view.

Improve your American English
The better you can express yourself, the easier
everything will be. Realize that you, as an international
student, will often be treated as a representative of the
group to which you are perceived to belong (stereotype)
and not as an individual. On many occasions, you may
be referred to as a “foreign student” or “a student from
country X.” This should not be taken personally, as it
probably has nothing to do with you as a person. Rather,
it stems from a lack of experience with people from
other countries. As you learn to better express yourself
and relate to American students, however, they will
open up to you and the awkwardness will fade.

Seek Guidance from Others
Contact students from your home country who have
already been here for some time. They will be able to
explain to you (in your own language) procedures that
may seem unfamiliar. Please contact your DSO if you do
not know anyone from your home country and they will
help you find someone.

Understand Your Status
Realize how the status of your role here compares to
the status to which you are accustomed in your home
country. Each society attaches different importance
to individual roles or positions in the society. In many
countries, the role of “university student” or “professor” is
given more respect or status than it is in America. If this
is the case, it can be difficult to adjust to having a lower
social status in this country than you are accustomed
to having in your own country. It is helpful to recognize
that you are not being downgraded as a person, but
that you happen to be in a society where less value is
attached to being a student than may be the case in your
home country.

Ask Yourself
People here may understand little about your culture
and may therefore misunderstand you and your behav-
ior. They may assume that limited English proficiency
is a lack of intelligence, rather than understanding that
English is not your native language. Here are a few ques-
tions that international students might want to think
about: How do Americans make friends? How is respect
shown? How do family members interact? What is the
relationship between males and females in different
situations? What are the dating patterns? How do people
spend their leisure time? How do they deal with conflicts
and disagreements? What do they talk about, when and
with whom? How often do they “take turns” during a
conversation?
American Expressions, Idioms and Slang

Awesome: amazing, fantastic

Barbecue (Bar-B-Que/BBQ): an outdoor party that features meat with sauce cooked over an open fire

Beat: very tired

Beat around the bush: to be evasive; not to speak openly about something

Big deal: sarcastic term to play down or belittle what someone has done

Biggie: something that is very important

Blow it: to do badly, e.g., “I really blew that exam.”

Bogus: inferior quality; phoney

Boonies: the countryside, far from the city

Bounce: to leave a place

Break the ice: to get acquainted, to make an awkward social situation comfortable

Broke: to be without money

Bummer: bad or sad situation; also bummed, bummed out: feeling very bad

Burbs: diminutive of suburbs, residential area outside of the city

Chill: to spend relaxed time, to “hang out” (“Come chill at my apartment.”)

Chill out: to slow down, to relax

Cold feet, to have: to be nervous; to be uncertain about doing something

Come again?: “Please repeat what you just said.”

Come off it: to stop what you are doing or saying

Cool: (adj.) term denoting approval for something or someone

Cool it: to slow down; to relax

Cop out: (v.) to quit; deny responsibility for; (n.) an excuse

Couch potato: person who spends all leisure time watching television

Cram: to study frantically just before a test; also eat a lot, to stuff yourself

Crash: to sleep or stay temporarily at someone’s place; also to go to a party uninvited

Cut it out, knock it off: a request or command to stop doing something

Date: (v.) to go out with another person; (n.) the person with whom you go

Down to earth: practical, straightforward; simple and honest

Drag: (n.) boring or unpleasant thing, (adj.) not much fun

Drive a hard bargain: to hold out for the best terms in a trade

Drop in, drop by: to visit unexpectedly

Drop off: to deliver to designated location

Drop out: (n.) someone who didn’t graduate from school; (v.) to quit before completing a goal

Dutch treat, go Dutch: each person pays for his/her own food or entertainment

Fat chance: very little chance

Fed up: sick of; disgusted with or tired of something

Fishy: suspicious; “There’s something fishy about his story.”

Flunk: to fail an exam or a course

Freak, freak out: to show great emotion, positive or negative

Funky: a term denoting approval, often used to describe items of clothing or design

Get it together, get one’s act together: to get organized

Get on one’s nerves: to cause irritation

Get with it: to conform with the situation; make the necessary adjustment; also “get with the program”

Give me a call, call me: “Telephone me”

Go for it: to take an active part in something, try to achieve some specific goal

Greeks: members of fraternities or sororities

Gross: term denoting something crude and extremely unpleasant or disgusting

Had it: to reach a limit of tolerance; “I’ve had it!”

Hang around: to wait, doing nothing in particular

Hang in there: “Don’t give up”; “Keep trying”

Hang on: in reference to the telephone, “Do not hang up the receiver. I’ll be back”; also “Keep trying”
More American Expressions, Idioms and Slang

Hang out: (v.) to spend time relaxing, not working or doing anything in particular; (n.) a place in which to spend leisure time

Mess around: to play, relax

No way: a response to a suggestion of something that is wrong or that one does not wish to do

Hang-ups: inhibitions or worries about things

Off the wall: crazy

Hassle: (n.) trouble, difficulty; “Catching the 7 a.m. bus every morning is a hassle;” (v.) “Don’t hassle me”

No way: a response to a suggestion of something that is wrong or that one does not wish to do

Have it in for someone: to have a deliberate intention to cause trouble for another

Have it made: to be assured of success

Out of it: not adjusted to the rest of the group, not fitting in; dazed

Out of sight: exclamation of approval

Peeved: irritated; disgusted

Out of sight: exclamation of approval

Piece of cake: easy

Put one’s foot in one’s mouth: to say something for which you are embarrassed

Pot luck: dinner where each person brings something to eat

Hit it off: become friends

Psyched: mentally prepared

Keep it up: to phone or write occasionally

Pull an all-nighter: stay up all night studying

Keep your fingers crossed: a good luck gesture or expression

Pull strings: to use personal influence to achieve an objective

Know one’s stuff: to be knowledgeable in a certain subject

Rain check: a deferred acceptance of an invitation with a promise to accept at a later date; “I can’t make it this Sunday but I’ll take a rain check.”

Lay off: to stop bothering or nagging

Ripped off: to be cheated of money

Make ends meet: to budget within one’s income

Uptight: nervous

What’s up?: “What is new?” “What is happening?” Often used as a greeting in very informal settings
Common Academic and Florida Tech Related Terms

Here are some common academic and Florida Tech related terms you will hear in and around campus on a daily basis.

**ACCESS:** A single sign-on system for easy access to PAWS, email, and other important university information

**Adjunct Faculty:** visiting or part-time instructors

**Audit:** to take a course without credit

**Bachelor’s Degree:** a degree received after completing four years at a university in a specific study

**CANVAS:** online learning system; professors post lecture notes, course information, changes to schedules, discussion boards, professors can post your grades

**Commencement:** graduation ceremonies held at the end of fall and spring semesters

**Course Numbers:** numbers that indicate the level of the course

**Diplomat:** a volunteer student, faculty, staff member or friend of the university who agrees to assist new international students on or before their arrival in the United States

**Dual Major:** When a student earns two different university degrees at the same time

**FAFSA:** Free Application for Federal Student Aid that students complete each year to see if they are eligible for money from the government and/or scholarships

**GSA:** graduate student assistant, usually teaches labs and helps professors administer exams

**IT:** information technology, also known as tech support

**Jungle:** the Botanical Garden on campus that contains over 300 species of plants and 200 species of palm trees, nice to walk through between classes

**Major:** a focus on a specific field of study, interest or career

**Minor:** a secondary focus on a different field of study, interest or career

**Orientation:** a week filled with events to help new students adjust to campus life

**Panther Cash:** spending money “stored” on a student ID card that may be used for purchases in the bookstore, laundry facilities, photocopy services, printing in the library and special services at the health center

**PAWS:** Panther Access Web for Students, an online student account students use to register for classes, access records and financial aid information, and make payments to student accounts

**PDH:** Panther Dining Hall; the main residential dining room; located in the center of campus

**PPL:** Panther Prep Leader; students of various majors who help new students adjust to college life during orientation

**RA:** resident assistant, an upper-classman who is responsible for students living on their floor in a residence hall
All international students and scholars are responsible for knowing the rules and regulations pertaining to their status. Failure to comply with the rules can result in serious consequences, including loss of your immigration status in the United States. These are your basic responsibilities as an international student or scholar:

- Maintain a valid passport at all times, provide your advisor with a copy
- Attend the school whose I-20/DS-2019 you enter the United States on
- Know the expiration date of your visa and provide the DSO with visa renewals
- Know your program completion date on your I-20 or DS-2019, follow correct procedure for timely extensions
- Carry full course load—12 credits for undergraduates, 9 for graduates. Follow correct procedures for less than full time course load
- Make normal academic progress
- All F-1 and J-1 students, unless officially sponsored by their home government or agency that guarantees student’s health insurance coverage as part of their contract with Florida Tech, must enroll in the Florida Tech health insurance plan (and your dependents if necessary)
- Report the DSO with changes in status within 10 days of a move, extension, transfer or program change
- File nonresident tax forms each year by deadline
- Obtain official work permission and approval, including RA and TA College Roll positions and all forms of off-campus employment. Adhere to proper terms of employment. Apply for Curricular Practical Training, Optional Practical Training in a timely manner
- Obtain travel signatures before leaving the United States
- Notify your advisor if you are leaving school for any reason
- Obey state and federal laws
- Depart from the United States in a timely manner

By law, Florida Tech is required to keep the following information on file: your name; date and place of birth; country of citizenship; current U.S. address; current academic status, including the start and end dates of your academic program; type of degree program and field of study; employment requests/approvals; termination date and reason; registration of number of credits per semester; and copies of immigration documents and passport. Designated School Officials (DSOs) are required to report any changes related to international students in SEVIS within 21 days.

**Immigration Terms To Know**

We understand that immigration regulations can often seem confusing, complicated and involve unfamiliar terms or concepts. To help you understand the essentials, we offer you this glossary of immigration terms to guide you through the process. Our office also offers workshops throughout the academic year, which cover important areas such as employment, taxes, etc.

**Completion Date**

Refers to the date the student completes the requirements for his or her degree program; i.e., it is the date the student finishes the last class, turns in a required thesis or dissertation, or otherwise meets the requirements for the degree. It is not the date of graduation, which may follow the completion date by weeks if not months.

**Department of Homeland Security (DHS)**

DHS is responsible for securing American borders and managing the immigration process. Under DHS, the newly
created United States Citizenship and Immigration Services (USCIS) focuses exclusively on providing services such as efficiently processing applications for U.S. citizenship, administering work authorizations and other permits and providing services for new residents and citizens.

**School Official (DSO)**
An employee or agent of an educational institution who has been authorized by USCIS to verify information and certify documents for F-1 students.

**DS-2019**
A certificate of eligibility issued by an authorized Exchange Visitor program. The certificate enables eligible individuals to obtain a J-1 visa to study, conduct research or teach in the United States. The J-1 exchange visitor, while traveling and re-entering the United States must also carry the DS-2019. The DS-2019 form functions as a record of J-1 status throughout the exchange visitor’s stay in the United States. It is an important government document that should be kept at all times as a part of the exchange visitor’s permanent records.

**Duration of Status (D/S)**
“Duration of Status” or “D/S” is the length of time for which individuals in F and J status are admitted into the United States. D/S allows students to remain in the United States as long as they are pursuing full-time studies and are otherwise complying with all immigration regulations. D/S is not, however, for an indefinite period of time. D/S is based on the completion date on your I-20 or DS-2019, plus a 60-day grace period for F-1 students and a 30-day grace period for J-1 students.

**Employment Authorization Document**
Known as the “EAD Card,” it is a photo ID card issued by USCIS to nonimmigrants, which grants employment authorization for specific periods of time. F-1 students need to apply for an EAD card to have permission to do optional practical training and off-campus employment (based on economic hardship).

J-2 dependents may also apply for an EAD card to have any type of employment.

**F-1 Student**
A nonimmigrant who is admitted into the United States to pursue a full course of study. F-1 student’s educational expenses are usually met by personal, family or university funds.

**F-2 Dependent**
A spouse or child of an F-1 student. F-2 spouses and children may not be employed while in the United States. F-2 spouses may not study full time. F-2 children may study full time only if it is in elementary or secondary school.

**Grace Period**
F-1 students have 60 days to remain in the United States beyond completion of studies to either prepare for departure or begin any authorized practical training; J-1 students have 30 days.

**I-20 (SEVIS I-20)**
A certificate of eligibility issued by an authorized educational institution enabling eligible individuals to apply for F-1 or M-1 student status. The student, while traveling and re-entering the United States, must also carry the I-20. This document reflects the student’s biographical data, school and program information and financial resources. The student should keep the I-20 as a part of his or her permanent records.

**IMPORTANT: A nonimmigrant may have more than one “visa” but will always have only one “status.”**
CULTURAL ADJUSTMENT

I-94 (Arrival/Departure Record)
The Form I-94 arrival/departure record provides nonimmigrants evidence that they have been lawfully admitted to the United States. U.S. Customs and Border Protection (CBP) gathers travelers’ arrival/departure information automatically from their electronic travel records (CBP will still issue a paper form I-94 at land border ports of entry). To retrieve your I-94 admission record, visit the following CBP website: https://i94.cbp.dhs.gov/I94/request.html.

J-1 Student
A nonimmigrant who has been selected to participate in an exchange visitor program. J-1 students generally are financially sponsored by an educational institution in the United States or abroad, a U.S. or an international government, or a private agency in support of international educational exchange. For individuals holding J-1 status, there is usually a “two-year home country residency requirement” and “health insurance.” (Refer to J-1 Scholar section under each heading.)

J-1 Scholar
A nonimmigrant who has been selected to participate in an exchange visitor program.

J-2 Dependent
A spouse or child of a J-1 student or scholar. J-2 dependents are eligible to apply for employment through USCIS.

M-1 Student
A nonimmigrant whose primary intent is to pursue vocational or technical training.

Nonimmigrant
A person who is in the United States temporarily to pursue a specific activity or purpose (e.g., study, travel, business). Most nonimmigrants, including all F-1 and J-1 students and their dependents, must have an established residence abroad to which they intend to return.

Passport
A formal permit to travel abroad from and return to the issuing country. With few exceptions, it is issued by one’s country of citizenship. All individuals, except Canadian citizens, in F and J status are required to have a valid passport at all times. It is your responsibility to extend or replace your passport BEFORE it expires.

PDSO and DSO (Primary Designated School Official and Designated School Official)
Responsible for Florida Tech’s compliance with the immigration regulations as well as any system alerts generated by SEVIS. Point of contacts for students/scholars.

Responsible Officer (RO) and Alternate Responsible Officer (ARO)
Responsible Officers in charge of overseeing and hosting the J-1 Exchange Visitor Program and reporting to the U.S. Department of State.

Student and Exchange Visitor Information System (SEVIS)
An Internet-based database for electronically tracking and reporting foreign students and exchange visitors in the United States. I-20s for F-1 students and DS-2019s for J-1 students/scholars are generated using SEVIS.
Special Registration
A system that enables the U.S. government to keep track of nonimmigrants that come to the United States every year. Currently, there are three categories of nonimmigrants who will have to do special registration: 1) citizens or nationals of Iran, Iraq, Libya, Sudan and Syria will be registered at the point of entry; 2) nonimmigrants who have been designated by the State Department; and 3) any other nonimmigrant identified by immigration officers at airports, seaports and land ports of entry will also need to register in accordance with 8 Code of Federal Regulations 264.1(f)(2).

State Department
The U.S. Department of State oversees diplomatic affairs and foreign relations for the United States. It is also responsible for issuing visas to foreign nationals who wish to enter the United States and regulates the Exchange Visitor Program, which includes J-1 students.

Status
Once nonimmigrants enter the United States, they are classified by USCIS according to the purpose of their visit. This classification is known as “status.” Students are in either F-1 or J-1 status and their dependents are in F-2 or J-2 status. USCIS regulates nonimmigrants according to the rules specific to that status. For example, one of the requirements of F-1 status is full-time study. A person’s status also determines how long he or she may remain in the United States.

Visa
An official notation placed in the passport granting permission for an individual to enter a particular country. The visa indicates the purpose of someone’s visit. The visa is also valid for a specified number of entries to the United States: one, two or “M” (multiple) until its expiration date. The visa does not indicate how long a person may remain in the United States, but only whether a person may enter the United States to pursue a particular type of activity (visit friends, study, work). Only U.S. consulates and embassies outside of the United States issue visas.
