

Graduate students should use this form to request a waiver of the registration requirement for dissertation/thesis research in accordance with graduate policy quoted below. Students should review the complete policy to avoid delays in graduating.

Graduate Policy states: "Subsequent to the initial registration, the [thesis] student must continue to register for at least three hours of thesis each academic term, including summer, until the thesis is defended and accepted ... A doctoral student who has been admitted to candidacy must normally register each academic term thereafter for six or more credit hours of dissertation throughout the remainder of his or her program." A waiver may only be granted if no university facilities or faculty time will be used by the student during the term for which the waiver is requested.
