It is proposed to change the prerequisite on MAE 2024 Solids Modeling from

MAE 1024 (Introduction to Mechanical Engineering) to

MAE 1024 (Introduction to Mechanical Engineering) OR MAE 1202 (Aerospace Practicum).

Aerospace engineering students frequently take MAE 2024 as a technical elective, however they do not take MAE 1024. It was an oversight not to add MAE 1202 as a prerequisite when recent changes were made to MAE 2024. The course material in MAE 1202 (in particular the topics of drafting and CAD) is necessary and sufficient for students to take MAE 2024.
The addition or removal of any restriction or change in credit hours in a course requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.
