**PSY 2512**

- is the first of a two course sequence in Methods and Statistics.
- has 3 credits (lecture no lab credits);
- is currently taught as 3x50=150min classroom + 75 min lab

The Psychology undergraduate faculty agreed unanimously on two changes:

1. The lab time should be increased to 100 min to provide adequate time to cover the material.
2. The credits should be increased from 3 to 4 to give credit for the lab.

*This change in credits does not affect the number of hours required to graduate. The additional hour will be taken from free elective credits.*
