To: Dr. Mark Archambault, Chair, Undergraduate Curriculum Committee
From: Dr. Richard Turner, UGCC member, Biological Sciences
Thru: Dr. Richard Aronson, Head, Biological Sciences
Date: 6 January 2011
Subject: UGCC Agenda for 28 January 2011

During the 2009–2010 and 2010–2011 academic years, the Department of Biological Sciences offered its two freshman courses (BIO-1010 Biological Discovery 1 and BIO-1020 Biological Discovery 2) in both fall and spring semesters.

The Department of Biological Sciences plans to restore its historical schedule of offering BIO-1010 during fall semester 2011 and BIO-1020 during spring semester 2012 (but without a trailer section of BIO-1010 in spring semester). The Department welcomes an opportunity for discussion of this change at the Committee’s regular meeting on 28 January to allow input from other programs that might be affected.
