TO: UGCC – Meeting April 2011  
FROM: Alan Rosiene, Department of Humanities & Communication  
SUBJECT: Humanities Core and Related Changes

The Humanities and Communication Department proposes to change the Humanities Core Requirements to allow options for HUM 2052. Such a change will expand transfer credit equivalencies and provide students with more choices in their program plans.

1. Change to the Humanities Core to allow options for HUM 2052

   A. Undergraduate Core Requirements section (changes highlighted)
      
      • Clarify COM and HUM requirements and electives.
      • Expand options allowed to satisfy the Humanities Core Requirement.
      • Housekeeping in regard to transfers satisfying the Humanities Core.
      • Introduce list of Humanities Core Courses
      • Include note concerning the scheduling of Humanities Core Courses
      • Housekeeping in regard to Aero associates satisfying the Humanities Core.

   B. Transfer Credits section (change highlighted)

      • Housekeeping in regard to transfers satisfying the Humanities Core.

   C. Program Plans: Humanities Core Requirement (list of changes)
      
      • Global change to all program plans, removing the HUM 2052 requirement.
      • Global change to all program plans, substituting “Humanities core course.”
      • Programs can file CGR form to limit the core course if they so desire.

2. Removal of HUM 2052 Prerequisite to reflect the change to the Humanities Core

   • CRC forms to remove the HUM 2052 prerequisite from the following courses:
      
      HUM 3026, HUM 3085
      HUM 3150, HUM 3151, HUM 3152, HUM 3185
      HUM 3230, HUM 3275, HUM 3280, HUM 3285
      HUM 3351, HUM 3352, HUM 3385
      HUM 3401, HUM 3485
      HUM 3521, HUM 3551, HUM 3552, HUM 3585
      HUM 4100, HUM 4150

3. Change of Graduation Requirements: Humanities-Prelaw Major and History Minor

   • Housekeeping in regard to renumbering of American History courses
Florida Institute of Technology

CHANGING GRADUATION REQUIREMENTS IN A MAJOR/MINOR

The addition or removal of any graduation requirement in a major or minor requires that this form, accompanied by supporting documentation, be completed and approved as indicated below. Incomplete or incorrect forms will not be processed.

COLLEGE  Psychology and Liberal Arts  DEPARTMENT  Humanities and Communication

DEGREE LEVEL  B.A.  PROGRAM TITLE  Humanities-Prelaw

TO BE INITIATED WITH CATALOG YEAR 20_12_20_13  CHANGE REQUESTED FOR  X major program  □ minor program  7_1_8_6

EFFECTIVE DATE FOR CHANGE  __/20_  NAMED TERM FOR EFFECTIVE DATE  Fall Semester - Main Campus

Month/Day/Year (Required)  Term MUST be named, i.e., UA-Fall 2, Fall Semester-Main Campus

BRIEF DESCRIPTION OF REQUESTED CHANGES Attach a more detailed description and any supporting documentation

Change HUM 3331 American History 1 and HUM 3332 American History 2 to HUM 2331 American History 1 and HUM 2332 American History 2

Courses were renumbered from 3000 to 2000 level to provide Humanities Core options.

Approvals: On completion of appropriate department approvals, submit form to Chair, Graduate Council, or Chair, Undergraduate Curriculum Committee, for approval below and forward to the Office of the Registrar

RGR-956-1009
Although most of the effort is directed toward the needs of freshmen, a growing portion is aimed at the needs of all students.

**Academic Support Center**

The Academic Support Center (ASC) is a multipurpose learning facility located in the Evans Library Pavilion. The ASC administers the Student Success Program and offers students free one-on-one tutoring in composition, mathematics, computer science, physics, accounting, chemistry, aeronautics and engineering courses. In addition, the ASC offers small group study sessions led by undergraduate honor student tutors.

The ASC also serves as a reserve center for various audiovisual materials that faculty can use to supplement coursework. The center contains programs on developmental reading, research paper writing, foreign languages and other topics of value to students.

**Early Warning System**

The Early Warning System, a service of the ASC and registrar’s office, requires advisers to contact their first-year students during the ninth week of the term if they are deficient in one or more courses.

**Florida Tech University Online**

Online tutoring is available to students via a service called Smarthinking. Students can access this service by clicking on the Resources tab within their course site. For 1000- and 2000-level courses, there will be a direct link to Smarthinking at the course site. For all other courses, it will be mentioned in the syllabus. Students can get live, online tutoring, as well as reviews and comments about essays and reports. Information about this service is available at www.smarthinking.com.

The learning management systems (LMS) automatically notifies students enrolled in Florida Tech University Online when, after four weeks into the term, they have not shown satisfactory progress.

**Graduation Requirements**

To receive an associate’s or bachelor’s degree, a cumulative Florida Tech grade point average of 2.0 or higher is required. In the case of a student seeking two or more associate’s or bachelor’s degrees (see “Dual Majors and Additional Degrees”), a program GPA of at least 2.0 is required in each program for which a degree is awarded, as well as the overall GPA of at least 2.0 that is required for the award of any associate’s or bachelor’s degree (see “Grade Point Average” for the definitions of program and overall GPA).

A student is not permitted to graduate unless all financial obligations have been satisfied. All program requirements must be completed no later than 24 hours before commencement exercises. Program requirements completed after the deadline will cause a delay in the awarding of the degree. When program requirements have been met, the student may request a letter verifying all degree requirements have been met and that the degree will be awarded.

Students should petition to graduate and attend the commencement ceremony for the term program requirements are met. Melbourne campus and Extended Studies Division students attend the spring ceremony if requirements are met in spring and the fall ceremony if the requirements are met in summer or fall. Florida Tech University Online students participate in the Melbourne commencement ceremony in spring if they satisfy requirements during Spring–1 or Spring–2 and the fall commencement ceremony if they satisfy requirements during Summer–1, Summer–2, Fall–1 or Fall–2.

**Undergraduate Core Requirements**

A common purpose of all undergraduate programs at Florida Tech is to impart an understanding of our current technology-centered civilization and its historical background. All students seeking a bachelor’s degree are therefore required to complete the following core requirements:

**Communication** (9 credit hours)

Including COM 1101, COM 1102 and one additional 3-credit hour communication course.

**Humanities** (9 credit hours)

Including HUM 2051, one 3-credit hour humanities course from the humanities core requirement list below and one additional 3-credit hour humanities course.

Any student who transfers to Florida Tech with an Associate of Arts degree from a regionally accredited institution in the U.S. automatically meets Florida Tech’s humanities core requirement for HUM 2051 and one 3-credit hour humanities core course. Transfer students should see the humanities and communication department for applicable course substitutions in the case of transferring to Florida Tech with less than an associate’s degree.

**Humanities Core Courses**

- HUM 2052 Civilization 2: Renaissance Through Modern
- HUM 2142 World Art History 2: Early Modern to Post-Colonial
- HUM 2212 English and American Literature 1
- HUM 2213 English and American Literature 2
- HUM 2331 American History: Pre-Columbian to Civil War Era
- HUM 2332 American History: From Reconstruction to the Present

Not all humanities core courses are offered every term; check the current schedule of classes for humanities core options.

**Mathematics** (6 credit hours)

**Physical and/or Life Sciences** (6 credit hours)

**Social Sciences** (3 credit hours)

In addition to these 33 credit hours, there is a computer literacy requirement that can be met by earning credit for one of the courses designated as CL in the Course Descriptions section. There is also a requirement to complete the one-credit hour course, University Experience (ASC 1000) during the freshman year for new Melbourne campus students enrolling full time in college for the first time, or Mastering eLearning (ASC 1006) during the first term for Florida Tech University Online students. Melbourne campus transfer students are not required to take ASC 1000 and should consult with their academic program chairs or advisers for available substitutions.

Courses listed under more than one prefix (i.e., Primer for Biomath, BIO 2332 and MTH 2332) may not be repeated for credit under the alternate prefix.

Core requirements for the associate’s degree in the College of Aeronautics are the same as for the bachelor’s degree, except in the areas of communication and humanities, where only four courses (12 credit hours) are required (COM 1101, COM 1102, HUM 2051 and one 3-credit HUM course from the humanities core course list).

Core requirements for the associate’s degree in Florida Tech University Online are as described in this catalog for each degree program and include the minimum undergraduate core requirements as described above.

36 Florida Tech
A student receiving a grade of three or better on AP examinations in most subjects, but not receiving Florida Tech credit under the above provisions, is encouraged to petition to take an equivalency examination, if offered, for further evaluation of possible credit.

Advanced Placement Program for Florida Tech University Online
Credit is awarded to Florida Tech University Online students for the College Board Advanced Placement Program (AP) examinations on which a student scores four or higher, as detailed above, with the following exceptions:

<table>
<thead>
<tr>
<th>SUBJECT</th>

</tr>
</tbody>
</table>

College-Level Examination Program (CLEP)
Florida Tech grants academic credit for Subject Examinations only. To receive credit, the minimum score must be equal to or above the recommended percentile as published by the American Council on Education (ACE). CLEP examinations are not administered on the Florida Tech campus. Florida Tech University Online students should e-mail tceu@fit.edu for further information.

Florida Tech expects students to take any CLEP examination before enrollment. Although a student may take these examinations while enrolled at Florida Tech, they may do so only with the permission of their major department and college dean. Credit earned from CLEP is excluded from the three-course limit that applies to the study at another institution policy. Contact the registrar's office (Florida Tech University Online students e-mail tceu@fit.edu) for further information.

International Examinations
Credit is awarded for grades of four or higher in the International Baccalaureate (IB) program for higher-level examinations and certain standard-level examinations for IB diploma holders. Based on a review of the subject areas and scores, credit is also awarded for receiving a C or better for the British GCE examinations at the advanced level (A-level), or for the Caribbean Advanced Proficiency Examinations (CAPE) when two units are completed.

ACE/DANTES Examination Credit
Credit is only considered for Military Course Completions and only when listed on an official ACE SMARTS or AARTS transcript. Credit is awarded based on ACE recommendation and Florida Tech transfer credit policy.

Florida Tech expects students to take any ACE/DANTES examinations before enrollment. Although a student may take these examinations while enrolled at Florida Tech, they may do so only with the permission of their major department and college dean. Credit earned from ACE/DANTES is excluded from the three-course limit that applies to the study at another institution policy. Contact the registrar's office for further information.

Transfer Credit
Florida Tech operates on the semester system. To convert credit hours transferred in from a quarter-system institution into semester credit hours, the number of quarter hours is divided by 1.5.

Undergraduate transfer credit may be awarded for courses taken at a college or university accredited by a regional accrediting association in the United States, or with equivalent recognition in the case of a college or university elsewhere. Flight credit is transferable subject to FAA rules for transferability between schools.

Any student who transfers to Florida Tech with an Associate of Arts degree from a regionally accredited institution in the U.S. automatically meets Florida Tech's humanities core requirement for HUM 2051 and one 3-credit hour humanities core course. Transfer students should see the humanities and communication department for applicable course substitutions in the case of transferring to Florida Tech with less than an associate's degree.

Transfer credit requires a grade of at least C or equivalent and a determination that the work is equivalent to that given at Florida Tech in course content and hours. A grade of C- or below is not eligible for transfer credit.

A course that includes a significant writing or speaking component must be taught entirely in English to be eligible for transfer. Credits can be transferred without being applicable toward the student's desired degree. Grades and grade points are not transferable. Florida Tech's forgiveness policy is not applicable toward transfer credits.

Credit will not be given for courses listed on a transcript when credit was received by examinations such as equivalency, advanced standing or other examinations; courses without a grade or carrying grades but not credit hours; vocational/technical courses; or for internships, practicums or experiential learning. In most cases, credit will not be given for courses completed more than 10 years before Florida Tech enrollment. Transfer credit for grades of P or S is subject to approval.

Melbourne Campus
All requests for transfer credit, including credit earned by taking AP examinations, subject area CLEP examinations, etc., must be submitted to the registrar. All official transcripts and documents...

53. Psychology, B.S., page 155, sophomore, Spring
54. Biochemistry, B.S., page 169, junior, Fall
55. Biological Sciences–Aquaculture, B.S., page 171, sophomore, Spring
56. Biological Sciences–Conservation Biology and Ecology, B.S., page 171, sophomore, Spring
57. Biological Sciences–General Biology, B.S., page 172, sophomore, Spring
58. Biological Sciences–Marine Biology, B.S., page 173, sophomore, Spring
59. Biological Sciences–Biological Sciences–Molecular Biology, page 174, sophomore, Spring
60. Biological Sciences–Premedical Biology, B.S., page 174, sophomore, Spring
61. Biomathematics, B.S., page 175, sophomore, Spring
62. Biochemistry (Chemistry listing), B.S., page 180, junior, Fall
63. Chemistry–Chemical Management, B.S., page 181, sophomore, Spring
64. Chemistry–General Chemistry, B.S., page 182, sophomore, Spring
65. Chemistry–Premedical Chemistry, B.S., page 183, junior, Fall
66. Chemistry–Research Chemistry, B.S., page 184, sophomore, Spring
67. Biomathematics (Math listing), B.S., page 187, sophomore, Spring
68. Mathematical Sciences, B.S., page 187, communication and humanities core
69. Mathematical Sciences–Applied Mathematics, B.S., page 188, communication and humanities core
70. Physics, B.S., page 193, sophomore, Spring
71. Physics–Premedical Physics, B.S., page 194, junior, Spring
72. Space Sciences–Astrobiology, B.S., page 195, senior, Fall
73. Space Sciences–Astronomy and Astrophysics, B.S., page 195, junior, Fall
74. Space Sciences–Solar, Earth and Planetary Sciences, B.S., junior, Fall
75. Interdisciplinary Science, B.S., page 197, humanities core, sophomore, Spring
76. Mathematics Education, B.S., page 203, sophomore, Spring
77. Middle Grades Mathematics and Science, B.S., page 204, sophomore, Spring
78. Science Education–Biology, B.S., page 205, junior, Spring
79. Science Education–Chemistry, B.S., page 205, sophomore, Spring
80. Science Education–Earth and Space Sciences, B.S., page 206, sophomore, Spring
81. Science Education–General Science, B.S., page 207, junior, Spring
82. Science Education–Physics, B.S., page 207, sophomore, Spring
