Examples of Credit Awarded for French OIB at Other Institutions

Suffolk University

Four semester hours may be awarded, with a coefficient of 4, for courses completed with a grade of 11 or higher. Eight semester hours may be awarded, with a coefficient of 5, for courses completed with a grade of 11 or higher.

MIT

MIT recognizes and gives credit for French Baccalauréat examinations in the following areas, based on appropriate documentation:

• Mathematics: For scores 10 through 20, credit will be given for 12 units of subject 18.01, Calculus I. For scores lower than 10, no credit is awarded. If you are given 18.01 credit and then take 18.01A (a variation of 18.01) for review purposes, your 12 units of 18.01 credit will convert to 3 units of general elective credit. In addition, you will receive 12 units of credit for a passing grade in 18.01A. If you take 18.014 (calculus with theory), your 18.01 credit will convert to 9 units of general elective credit. In addition, you will receive 12 units of credit for a passing grade in 18.014.

• Physics: For scores 13 through 20, credit will be given for 12 units of subject 8.01, Physics I. For scores lower than 13, no credit is awarded. If you earn 8.01 credit and then enroll in 8.012 (the advanced version of 8.01), the 12 units of credit initially given for 8.01 will convert to 6 units of general elective credit. You will also receive 12 units of credit for a passing grade in 8.012.

• Humanities, Arts and Social Sciences: For scores 13 through 20 on exams in fields designated as Humanities, Arts, or Social Sciences at MIT, credit will be given for 9 general elective units. Note that credit earned from HASS-related French Baccalauréat exams does not satisfy any part of the HASS Requirement. For scores lower than 13, no credit is given.

Babson University

French Baccalaureate credit and/or advanced course placement is awarded for a coefficient of 4 or higher with a score of 12 or above. Credit will be given for Economics, History and Geography, Mathematics, Philosophy, Physics, Language and Literature. An Official Transcript is required to receive credit for French Baccalaureate.

---

1 Obtained from
**Boston College**

For all subjects with a coefficient of 5 or higher, advanced placement units will be assigned as follows:
- 6 units for scores of 13 or higher
- 3 units for scores of 10–12
- Scores below 10 do not qualify.

Units may be used to fulfill corresponding core or major requirements.

**George Washington University**

**French Baccalaureat**, Baccalaureat Part II (where applicable). A minimum mention of assez bien or academic average of 12/20 is required. A Technical Baccalaureat is not acceptable. 6-8 semester hours of credit awarded for subjects which carry a coefficient value of 4 or higher and in which a grade of at least 10 is earned.

**University of Virginia**

The College of Arts and Sciences offers possible advanced standing credit for scores of 12/20 or higher on examinations in subjects studied at a coefficient of 4 or 5. Upon departmental recommendation, students may receive one, and no more than two, semesters of introductory-level credit for each qualifying examination.
