Re: CWE 3003 Pre-requisite change

Date: March 24, 2014

The purpose for changing the pre-requisite for CWE 3003 is to allow College of Engineering students of junior standing who have had prior major-related work experience to receive technical elective credit.

The purpose of CWE 1001 is to award credit for a first major-related work experience, taken at sophomore standing or above in any major. Neither CWE 1001 nor 2001 allow students to receive tech elective credit.

CWE 3003 is offered only to College of Engineering students who have had multiple major-related work experiences. It is the only course that allows students to receive technical elective credit, and it is only awarded when the work experience is approved by the co-op academic advisor as rigorous enough to warrant tech elective credit.
The addition or removal of any restriction or change in credit hours in a course requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.
