Credit hours: 3

Description:

Examines applied research methods and techniques used in criminal justice and homeland security. Provides analysis and projects using Microsoft Excel to obtain and interpret descriptive statistics, elementary inferential statistics, and analysis of variance in the applied context of criminal behaviors.

Prerequisites: PSY 3012 and HSC 2011

Text books:

Course Objectives:

At the conclusion of the course the student should be able to:

1. Define the purposes of research and the different avenues of inquiry.
2. Explain the ethical issues of criminal justice research.
3. Discuss the relationship between theory, research, and public policy.
4. Define the elements of a research proposal.
5. Recognize and critique the use of experiments in criminal justice research.
6. Utilize appropriate data collection and interpretation techniques in a research project.

Course Requirements: This course includes a variety of discussion issues, readings, exercises, lectures and assessments.

Syllabus: HSC 2011 – Introduction to Terrorism

Credit hours: 3

Description: Describes a brief history of religious, state-sponsored, and political terrorism. Examines domestic and international terrorist acts and groups, and outlines the importance of intelligence-gathering and counterterrorism activities.

Prerequisites: HSC 1000 and PSY 2510

Text book:

Course Objectives:

Upon completion of this course, students should be able to:

1. Discuss terrorism, its organization, tactics, and relationship with politics, religion, and the media.
2. Summarize the history of terrorism using examples from the Middle East, Latin America, and Ireland and their influences on terrorism today.
3. Understand present-day geopolitical situations in which terrorism plays a prominent role.
4. Identify key terrorist groups and networks in an international and domestic setting.
5. Describe the intelligence process and counter-terrorism activities.

Course Requirements: This course includes a variety of discussion issues, readings, exercises, lectures and assessments.

Credit hours: 3

Description:
Examines interagency functions and interdisciplinary activities of federal, state, and local authorities in preparation and protection activities. Describes the National Response Framework, National Infrastructure Protection Plan, and other planning and preparedness functions of the homeland security enterprise.

Prerequisites: HSC 1000 and PSY 2510

Text books:
National Response Framework (NRF) and National Incident Management System (NIMS) - Complete Coverage of FEMA and Department of Homeland Security Disaster and Emergency Incident Response (CD-ROM), U.S. Government (Author)

Course Objectives:
At the conclusion of the course the student should be able to:

1. Describe how communities, tribes, states, the federal government, private-sectors, and nongovernmental partners work together to coordinate national response.
2. Describe specific authorities and best practices for managing incidents.
3. Identify special circumstances where the federal government exercises a larger role, including incidents where Federal interests are involved and catastrophic incidents where a State would require significant support.
4. Demonstrate knowledge of and apply the NRF principles: engaged partnerships; tiered response; scalable, flexible and adaptable operational capabilities; unity of effort through unified command; and readiness to act.

Course Requirements: This course includes a variety of discussion issues, readings, exercises, lectures and assessments.

Syllabus: HSC 4410 – Critical Infrastructure Protection

Credit hours: 3

Description:

Examines the intricate and interdependent physical and cyber-assets of government and the industrial/commercial complex. Assesses the vulnerabilities of public utilities, banking, finance, water supply, and communications. Critiques disaster, mitigation and recovery plans to construct effective defenses and preventative measures.

Prerequisites: HSC 3230 and CRM 3150 and 4th year standing

Text books:

Course Objectives:

At the conclusion of the course the student should be able to:

1. Define the elements of critical infrastructure.
2. Explain the interdependency of critical infrastructure and economics.
3. Assess the risk to various elements of infrastructure through case study.
4. Develop and evaluate prevention, response, and recovery plans.

Course Requirements: This course includes a variety of discussion issues, readings, exercises, lectures and assessments.

Syllabus: PSY 3101 – Psychology of Disasters

Credit hours: 3

Description:

Prerequisites: PSY 1411 and PSY 3012

Text books:

Course Objectives:

At the conclusion of the course the student should be able to:

1. Examine psychological theory as related to various forms of disasters.
2. Identify expected individual behavioral, emotional, and cognitive responses to disaster.
3. Explore various forms of disasters and the aspects of survivor responses.
4. Identify various risk factors that may predispose individuals to distress related to disaster.
5. Identify protective factors that may predispose individuals in avoiding negative stress related to disaster.
6. Examine impact on special populations, such as children, elderly, and special needs, from disasters.
7. Identify various prevention, mitigation, and intervention strategies commonly utilized to prepare for, prevent, and minimize the impact of disasters on first responders and civilian populations.

Course Requirements: This course includes a variety of discussion issues, readings, exercises, lectures and assessments.

Memo

To: UGCC
CC: Mary Beth Kenkel, Dean, CoPLA
From: Marshall Jones, Director, CoPLA Online
      Jim Reynolds, Chair, Criminal Justice Program
Date: August 23, 2013
Re: Change in Graduation Requirements to A.A. and B.A. in Criminal Justice

We are requesting changes in the criminal justice programs. Below is a list of proposed changes offered to add explanation in support of the forms and updated flow charts.

1. Replacement Courses (no change to total credits)

   a. Replacement - PSY 2510 Research and Computer Literacy replaces CIS 1130 PC Applications or CIS 1140 Business Computer Skills. The course is designed to introduce research of peer-reviewed scholarly works and focus on computer skills necessary for success in Criminal Justice. This change applies to the A.A. degree as well as B.A.

   c. Replacement - PSF 3551 Integrated Theories of Crime and Behavior replaces one Restricted Elective. PSF 3551 is a behavior focused course that explores human behavior from a multidisciplinary approach. This course provides a solid theoretic foundation for the multidisciplinary nature of the study of behavior to include crime, delinquency, and terrorism.

   d. Replacement – CRM 4990: Practical Problem Solving in Criminal Justice (Q) replaces CRM 4900: Problem Solving in Criminal Justice 1 (Q) given the QEP1 is being reduced from a two course (6 credits) sequence to a one course (3 credit) sequence.
2. Addition and Deletions (no change to total credits)

   a. PSY3012 added - CRM 4901 deleted.
      i. Addition - PSY 3012 Research Methods in Applied Psychology is a current requirement for Applied Psychology students. Adding this course to the Criminal Justice degree will provide a foundation for the new course CRM 3150: Research Methods in Criminal Justice and Homeland Security. The additional three credits are made possible with the deletion of CRM 4901 Problem Solving in Criminal Justice 2.

      ii. Deletion - CRM 4901 Problem Solving in Criminal Justice 2 is deleted. A two-course sequence in the Quality Enhancement Program is unnecessary for this program.

   b. CRM 3601 added and PSY 3441 deleted.

      i. Addition - CRM 3610 Criminal Justice and the Media is added as a core course. This course is designed to provide critical perspective on the impact of news and entertainment, social media, and popular culture on policy and practices in Criminal Justice agencies.

      ii. Deletion – PSY 3441 is removed from the program. The multicultural objectives supported in this course are adequately addressed in CRM 3901: Comparative Criminal Justice Systems.

3. Prerequisite Additions

   a. CRM 3104 Law Enforcement Systems has an added prerequisite, CRM 3150: Research Methods in Criminal Justice and Homeland Security, to better prepare students for the research and writing requirements of that course.

   b. CRM 3407 White Collar Crime has an added prerequisite, PSY 2510: Research and Computer Literacy, to better prepare students for the research and writing requirements of that course.

   c. CRM 4712 Criminal Justice Ethics has an added prerequisite, CRM 3150: Research Methods in Criminal Justice and Homeland Security, to better prepare students for the research and writing requirements of that course.
d. CRM 4406 Homeland Security and Terrorism has an added prerequisite, CRM 3150: Research Methods in Criminal Justice and Homeland Security, to better prepare students for the research and writing requirements of that course.

e. CRM 4810 Serial Killers has an added prerequisite, CRM 3150: Research Methods in Criminal Justice and Homeland Security, to better prepare students for the research and writing requirements of that course.

f. CRM 4820 Violent Crime has an added prerequisite, CRM 3150: Research Methods in Criminal Justice and Homeland Security, to better prepare students for the research and writing requirements of that course.

g. CRM 4830 Organized Crime has an added prerequisite, CRM 3150: Research Methods in Criminal Justice and Homeland Security, to better prepare students for the research and writing requirements of that course.
The proposed change is the replacement of CIS 1130/1140 with PSY 2510 Research and Computer Literacy, which is designed to prepare students in criminal justice and psychology with research and writing skills specific to those fields.

**Total Credits**: 121
The College of Psychology and Liberal Arts proposes a new B.A. degree in Criminal Justice with Homeland Security Option. It is based on the core existing B.A. in Criminal Justice and adds for the study in Homeland Security. You will find a list of alterations from the existing Criminal Justice degree to help in comparing and differentiating the two degree programs.

Replacement Courses

1. Replacement – HSC 1000 Introduction to Homeland Security replaces CRM 2002 Correctional Systems. The course is designed to introduce core concepts of Homeland Security. Students in this option are not expected to follow a path to the field of Corrections.

2. Replacement – HSC 2011 Introduction to Terrorism replaces CRM 2201 Criminology. This course builds on core concepts in Homeland Security to focus on the threat of terrorism, which is the justification for the Homeland Security infrastructure. Students in this option take PSF 3551 Integrated Theories of Crime and Behavior, which provides a solid theoretic foundation for the multidisciplinary nature of the study of crime, delinquency, and terrorism.

3. Replacement – HSC 2204 Emergency Management replaces CRM 2203 Delinquency and Prevention. While emergency management is a core component of Homeland Security, the known involvement of juveniles in terrorism is marginal to student learning in this program.

4. Replacement – SOC 1102 Global Perspectives replaces the Social Science elective in this program in order to prepare students for the international and multicultural aspects of the terrorism threat.

7. Replacement – HSC 4450 The Intelligence Process replaces a Restricted Elective. The core learning objectives of Homeland Security in conjunction with Criminal Justice requires a more defined program structure.

8. Replacement – HSC 4410 Critical Infrastructure Protection replaces CRM 4406 Homeland Security and Terrorism. Core concepts for this program option are covered in earlier coursework.

9. Replacement: PSY 3101 Psychology of Disaster replaces PSY 3541 Psychology of Leadership, which is moved to Restricted Elective status. The new course provides critical knowledge on psychological issues encountered by first responders and the affected general population following disasters.

Additions to Restricted Electives (no change to total credits)

1. HSC 4104 Risk Assessment, Response, and Recovery for Homeland Security is added to the choices in restricted electives to allow students in this option more alternatives that focus on Homeland Security issues.

2. HSC 4510 Intelligence Analysis is added to the choices in restricted electives to allow students in this option more alternatives that focus on Homeland Security issues. This course offers practical exercises in intelligence analysis that builds on concepts introduced in HSC 4450 The Intelligence Process.

3. HSC 4230 Domestic Terrorism is added to the choices in restricted electives to allow students in this option more alternatives that focus on Homeland Security issues. This course offers a focus on domestic terrorism that builds on concepts introduced in HSC 2011 Introduction to Terrorism.

4. PSY 3541 Psychology of Leadership is reclassified to be a restricted elective for this option, which supports students on a leadership track in career goals.
Florida Institute of Technology

ADDITION A NEW MAJOR OR MINOR TO THE CURRICULUM

Please provide the following information when requesting a new major or minor (program or option) to be added to the curriculum. Only new majors, minors and options are assigned a new code and print on the diploma. The code will be assigned by the Office of the Registrar and information emailed to all appropriate personnel.

COLLEGE: Psychology and Liberal Arts

DEPARTMENT: Psychology

DELIVERY MODE(S): Online

CAMPUS/SITE(S): Online

PROGRAM TO BE ADDED: ☑ Major ☐ Minor ☑ Option for BA CJ (7620) (existing degree program)

NOTE: Only Majors, Minors and Options receive new codes and print on the diploma; use Concentration or Specialization if the new program represents less than a full degree curriculum.

☐ Concentration or ☐ Specialization for ____________________________________________ (existing degree program)

PROGRAM TITLE: Restricted to 30 characters, including spaces

Bachelor of Arts in Criminal Justice - Homeland Security

TERM TO BE INITIATED: Spring 2014

ADVISOR FOR NEW PROGRAM: Marshall Jones

(Date program to be initiated must be no sooner than the next term for which registration has not begun)

ROUTING APPROVALS: 1) Department head/program chair and college dean approve and sign form. 2) The associate vice president for institutional compliance reviews and signs form. 3) The executive vice president or his designee approves business plan of the program in terms of financial viability and impact on the university mission and signs form. 4) Undergraduate Curriculum Committee or Graduate Council approves academics and signs form. 5) The executive vice president or his designee gives final approval of program, signs form and forwards to Office of the Registrar.

1) Department Head/Program Chair: 8/11/13

2) Dean or Associate Dean: 8/21/13

3) Associate Vice President for Institutional Compliance: 8/22/13

4) Chair, Graduate Council: 

OR

5) Chair, Undergraduate Curriculum Committee: 

Executive Vice President: 8/23/13
