Re: Changing course requirements for PSY 3423 – Physiological Psychology

In the August UGCC meeting, the requirements for PSY 3423: Physiological Psychology were amended to add a research methods pre-requisite (PSY 2512 or PSY 3012). It was brought up that a number of Biology Majors take this course and it was requested that BIO 2801: Biometry, be added to the approved research methods pre-requisite list. The attached form addresses the concern, adding Biometry to the list of pre-requisites – students may now take PSY 2512 or PSY 3012 or BIO 2801 (in addition to the other course pre-requisites).
The addition or removal of any restriction or change in credit hours in a course requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.
