cc: Mary Beth Kenkel, Dean, College of Psychology and Liberal Arts

Date: January 19, 2017

Re: Request to change the requirements for a course

The undergraduate program in the school of Psychology is requesting the removal of "PSY 3513" and "or PSY 4514" as prerequisites for PSY 3524: Sensation and Perception. We concurrently request to add PSY 2512: Psychology and Research Methods and Statistics 1 as the prerequisite for PSY 3524: Sensation and Perception. This change is requested for consistency across 3000 level Psychology courses.
REQUEST TO CHANGE THE REQUIREMENTS FOR A COURSE

Any change, addition or removal of any restriction, or change in credit hours or availability for a course requires this form, accompanied by any supporting documentation, be completed and approved as indicated below.

COLLEGE College of Psychology and Liberal Arts

About this course

Political psychology is a specialty area within both social psychology and political science, and incorporates concepts from sociology, in particular psychological sociology and social movements. The interdisciplinary orientation of the field presupposes the mutual interaction of psychological processes on the one hand and social-cultural-historical processes on the other, with the ultimate focus on the thoughts and behaviors of individuals. The field is broad, incorporating the study of political and social attitudes, implicit attitudes, prejudice, values, beliefs, cognitive biases, attitude change within the context of historical events, ideology, social change, modernization, economic conditions, and the world system. Specific questions involve political socialization, political party affiliation, voting decisions, issues vs. emotions in voting, leader characteristics, electoral politics, gender/race/ethnicity, media influence, public opinion, and the research methods employed to study these issues.

Some specific issues to be examined this semester include:

1. The resurgence of populism in presidential elections and its relationship to sociological and psychological concepts such as modernization, urbanization, and authoritarianism
2. The political and social factors that may explain the surprise 2016 presidential victory of Donald Trump
3. Source and effects of attitudes and opinions involving USA immigration; nativism
4. Personality characteristics of successful and unsuccessful leaders
5. Issues pertaining to the success and failure of female candidates, such as the Democratic Party candidate’s (Hillary Clinton) loss in 2016
6. Whither the culture wars? And their effects on attitudes and voting behavior
7. The roots of terrorism and the psychology of terrorists

Group Projects: The class will form several groups of approximately equal size and proportion of psychology majors in order to conduct a political psychology study. Groups should include 3 or 4 members. I will set a series of graded benchmarks for the large project to help you stay on schedule.
Quizzes and Exams: Combination of essay and objective format, covering text chapters, readings, and lectures. There will be a quiz every two weeks; content of the quiz will be announced in the previous class. It is hoped that these quizzes will assist you in keeping up with the reading.

Attendance: Students in the classroom when I call roll will be marked present. If you are late, I will give you partial attendance credit if you remind me after class. (There is a high probability that students who are late will not be marked present at all unless they remind me.)

Policies

Attendance
Students in the classroom when I call roll will be marked present. If you are late, I will give you partial attendance credit if you remind me after class. (There is a high probability that students who are late will not be marked present at all unless they remind me.) Attendance is mandatory, as the other course assessments (exams, quizzes, projects) do not fully measure the knowledge and wisdom! you can get from a brick and mortar class. Students are allowed one free absence, regardless of reason (illness, oversleeping, surf's up), after which you will lose points for each absence, including for illnesses. After five absences, you will automatically receive an "F" in the course.

Cell Phones Are Evil and I Love Mine (but I Hate Yours)
You may never use your cell phone during class, and it must be put away and set on vibrate. Each time you violate this policy, you will be marked "late" (half of an absence).

Laptops and Tablets
You may use laptops and tablets to take notes during class if you (1) sit in the front row and (2) send me your notes via email at the end of the class. The notes need to be at least 500 words long to justify using the device.

Academic Dishonesty

School of Psychology Statement on Academic Dishonesty:

Academic dishonesty is the willful misrepresentation of all or any part of another's work as one's own. The use of one's own papers and materials prepared for another class without express permission of instructor is considered plagiarism. Copying another's answers or giving or receiving proscribed assistance during classroom or take-home examinations, assignments, papers, research reports, and projects is cheating. Plagiarism in all its forms is cheating; it is the student's responsibility to understand academic expectations for attribution and citation. A student who aids another in cheating shares the guilt of the offense. Additional details concerning academic dishonesty and university policies can be found on the Florida Tech web site (search Student Handbook). The College of Psychology and Liberal Arts pursues all cases of academic dishonesty vigorously, according to University guidelines.

Plagiarism and cheating of any kind on an examination, quiz, or assignment will result at least in an "F" for that assignment and may result in expulsion from the university. I, as the instructor, am required to report all violations to the Undergraduate Chair. Due to the potential consequences it is always better to turn in no assignment, or an incomplete assignment, than to hand in work that is not your own.
**Schedule:** We will cover the following topics in order, not necessarily in line with the organization of the textbook. I will assume you have done the reading before class. Quizzes will assess the validity of this assumption.

Memorandum

To: Marshall Jones
From: Jim Reynolds
Date: January 18, 2017
Subject: Changes to BA/Criminal Justice Graduation Requirements

Students in the BA/Criminal Justice program are currently required to take both CRM 2201 Criminology and PSY 3551 Integrated Theories of Crime to graduate. There is significant duplication of material between the courses. Basic criminological theory is all that the students really need. We want to remove PSY 3551 as a graduation requirement. It is in the students’ best interest to instead allow a fourth Restricted Elective from the upper division that gives them broader exposure to important criminal justice concepts.

In that regard we also want to add CRM 3701 Introduction to Cybersecurity, developed for the Homeland Security option, to the list of Restricted Electives for BA/CJ, given the growing criticality of this topic to the criminal justice system. This was an oversight that needs correction in the catalog.
Florida Institute of Technology

CHANGING GRADUATION REQUIREMENTS IN A MAJOR/MINOR

The addition or removal of any graduation requirement in a major or minor requires that this form, accompanied by supporting documentation, be completed and approved as indicated below. Incomplete or incorrect forms will not be processed.

COLLEGE: COPLA

DEPARTMENT: Psychology

DEGREE LEVEL: BA

PROGRAM TITLE: Criminal Justice

TO BE INITIATED WITH CATALOG YEAR 2017-18

CHANGE REQUESTED FOR: □ major program □ minor program 7620

Program changes are effective beginning with the fall term in which they appear in the University Catalog.

□ Yes  □ No Will this change impact the program's assessment process? If yes, attach a description of how the assessment will be impacted and the new process.

DESCRIPTION OF REQUESTED CHANGES: Attach a more detailed description and any supporting documentation

Remove PSY 3551 Integrated Theories of Crime from the required courses
Add a fourth Restricted Elective
Add CRM 3701 Introduction to Cybersecurity as an option for the Restricted Electives.

Approvals: On completion of appropriate department approvals, submit form to Chair, Graduate Council, or Chair, Undergraduate Curriculum Committee, for approval below and forward to the Catalog & Curriculum Manager.

Memorandum

To: Marshall Jones
From: Jim Reynolds
Date: January 18, 2017
Subject: Changes to BA/CJ-Homeland Security Degree Graduation Requirements

Students in the BA/Criminal Justice-Homeland Security Option program are currently required to take PSY 3551 Integrated Theories of Crime to graduate. These students have only two Restricted Electives allowed out of ten relevant options. There is sufficient coverage of criminological theory in CRM 2201 Criminology, which is not required. We want to make CRM 2201 an option to PSY 3551. This would allow a student to take another degree-specific Restricted Elective if CRM 2201 filled a Free Elective.

CRM 3701 Introduction to Cybersecurity, developed for the Homeland Security option, was never included as a Restricted Elective for that program due to an oversight in preparing past UGCC paperwork. This needs to be corrected in the catalog. We also want to add PSY 3101 Psychology of Disasters to the Restricted Elective opportunities for CJ-Homeland Security students due to the relevance of that subject to their program of study.
The addition or removal of any graduation requirement in a major or minor requires that this form, accompanied by supporting documentation, be completed and approved as indicated below. Incomplete or incorrect forms will not be processed.
