Re: Removing AHF 3101 from the Forensic Degree electives; Changing pre-req for PSY 4522; Changing pre-req for BEH 3465

1. **Removing AHF 3101 from the Forensic Degree electives.** In the past, there were not enough psychology offerings to satisfy the Natural Science Bases requirement of the Forensic Psychology degree. To compensate, we allowed students to use AHF3101: Introduction to Human Factors. Last year, we added PSY3520: Memory and we also started offering PSY3423: Physiological Psychology every semester. Since our students now have ample opportunities to satisfy the requirement by taking courses in the psychology department (and because we would like to encourage the psychology requirements to be filled with psychology courses), we no longer need AHF3101 as an option and would like to remove it from the Forensic B.A. degree.

2. **Changing pre-req for PSY 4522: Comparative Animal Cognition.** To allow for more Biological Sciences students to benefit from the Comparative Animal Cognition class, we would like to add “BIO 2801: Biometry” as an “or” to the list of pre-reqs. The pre-reqs would read: PSY 3421 or PSY 4521 or BIO 2801.

3. **Changing pre-req for BEH 3465: Applied Behavior Analysis.** The current pre-req for BEH 3465 is PSY 2800: Introduction to Behavior Analysis, but that course can only be applied to a select few concentrations. BEH 3465 could benefit more students if we added “or PSY 3421: Learning and Motivation” to the list of pre-reqs.
The addition or removal of any graduation requirement in a major or minor requires that this form, accompanied by supporting documentation, be completed and approved as indicated below. Incomplete or incorrect forms will not be processed.
